At three of the clock, the Gentleman Usher of the Black Rod, appeared at the Bar and said:—

*Gentlemen of the House of Assembly:*

“His Excellency the Governor requests your immediate attendance in the Council Chamber.”

Accordingly, the Members of the Assembly proceeded to the Council Chamber, where the following Commission was read by the Clerk of the Legislative Council:

## COMMISSION

*By His Excellency Sir WILLIAM LAMOND ALLARDYCE, Knight  
Commander of the Most Distinguished Order of Saint  
Michael and Saint George, Governor and Commander-  
in-Chief in and over the Colony of Newfoundland.*

W. L. ALLARDYCE,  
GOVERNOR,  
(L. S.)

*To the Honourable James D. Ryan, Honourable Samuel Milley and Honourable  
Alfred B. Morine, K.C., Members of our Legislative Council, Greeting.*

Whereas I have deemed it expedient that the First Session of the Twenty-sixth General Assembly should be open for the despatch of business on Wednesday, the Ninth day of this instant month, whereof I have given notice in my Proclamation dated the Third day of July instant; and

Whereas it is not convenient that the purposes for which I have called the said General Assembly together should be declared on the said day, nor until the Members of the House of Assembly have proceeded to the choice of a Speaker, you, the said Honourable James D. Ryan, Honourable Samuel Milley, and Honourable Alfred B. Morine, are hereby authorized and directed to signify to the Members of the said House of Assembly on the Ninth day of this instant month, that it is my pleasure that they should proceed to the choice of some proper person to be their Speaker, and present such person on the following day for my approbation.

Given under my Hand and Seal at the Government House, St. John's, this 8th day of July, A.D. 1924.

By His Excellency's Command,

(Sgd.) J. R. BENNETT,

*Colonial Secretary.*

W. J. HIGGINS,

*Attorney General.*

The Honourable James D. Ryan, President of the Legislative Council then said:—

It is not convenient for His Excellency the Governor to declare the reasons for his calling this General Assembly on this day, and it being necessary that a Speaker of the House of Assembly should be first chosen, you, Gentlemen of the House of Assembly, will repair to the place where

you are to sit, and there proceed to the appointment of some proper person to be your Speaker, and present such person whom you shall choose here to-morrow, at three of the clock, for His Excellency's approbation.

And the Members having returned to the Assembly Room, the Honourable the Prime Minister, addressing himself to the Clerk, who standing up pointed to him and then sat down, moved "that Cyril James Fox, Esquire, Member elected for the District of St. John's (Eastern Division), do take the Chair of this House as Speaker," which motion was seconded by Albert E. Hickman, Esquire, Member elected for the District of Harbour Grace.

No other person being proposed as Speaker, Mr. Fox was unanimously called by the House to the Chair, and was conducted to the Chair by the Members who proposed and seconded him.

Whereupon, Mr. Speaker standing on the steps, addressed the House, expressing his gratitude to the Honourable Members for the high honour unanimously conferred upon him.

The House then adjourned until to-morrow afternoon, at a quarter to three of the clock.

---

THURSDAY, JULY 10th, 1924.

The House met at a quarter to three of the clock in the afternoon, pursuant to adjournment.

At Three o'clock a message from His Excellency the Governor was delivered by the Gentleman Usher of the Black Rod, commanding the immediate attendance of Mr. Speaker and the House in the Council Chamber.

Whereupon Mr. Speaker and the House attended His Excellency in the Council Chamber; and being returned to the Assembly Room, Mr. Speaker informed the House that, when in attendance upon His Excellency in the Council Chamber, His Excellency had been pleased to approve of his election as Speaker of this House, and that in the name and on behalf of the House of Assembly he had, by humble petition to His Excellency, laid claim to all their ancient rights and privileges, which His Excellency had confirmed to them in as full and ample a manner as they have been granted or allowed by His Excellency or any of his predecessors. Mr. Speaker also expressed his respectful acknowledgments for the high honour which the House had unanimously conferred upon him.

---

Mr. Speaker further announced that whilst in the Council Chamber, His Excellency had been pleased to make a Speech to both branches of the Legislature, of which Speech, for greater accuracy, he had obtained a copy, which he then read to the House as follows:

*Mr. President and Honourable Gentlemen of the Legislative Council:*

*Mr. Speaker and Gentlemen of the Honourable House of Assembly:*

I welcome you to this the first session of the twenty-sixth General Assembly. The circumstances under which you meet suggest that your deliberations need not be protracted, for my advisers have not been in office long enough to permit of that close investigation into public affairs which should precede legislation.

Since the last General Assembly was prorogued, three administrations have been appointed and two have resigned, and a General Election has resulted in a large majority for my present advisers. Of my Ministers who sought re-election, all except two were returned by acclamation, and the two who were opposed, obtained largely increased majorities. Many electors being absent at this season, at the Fishery and elsewhere, from Bonavista District, the two members who sit for that Constituency will seek re-election at a later date this year.

The Seal Fishery this Spring was a successful one, and the Cod Fishery has commenced hopefully, with prospects of satisfactory markets. Unemployment has decreased, and upon the whole, a new spirit of encouragement is manifested by the people of the Colony.

Field Marshal Earl Haig has recently honoured the Colony by his presence under the auspices of the Great War Veterans' Association, to unveil a beautiful National Memorial to the Colony's loyal sons who fell in the Great War, and the manner in which the occasion was marked, and the success which attended the efforts of those responsible will never be forgotten. The Field Marshal was accompanied by Lady Haig, and warships of Great Britain, France and the United States of America were present in the Port of St. John's, and officers and crews took part in the ceremony.

*Mr. Speaker and Gentlemen of the Honourable House of Assembly:*

Estimates were provided by the preceding Government for the consideration of the last General Assembly. My present advisers have not had sufficient time for a complete consideration of those estimates. They have amended them in some particulars, only in the direction of greater economy and propose to submit them as amended, with a promise that such further economies shall be made as investigation may prove feasible.

The Enquiry by Auditors into the affairs of several Public Departments instituted by a recent Government, has been steadily pursued, but has not yet reached a stage which would justify an Enquiry on Oath. When such a stage has been reached, a Commissioner to hold the Enquiry will be obtained from England. In the meantime, investigations on even a wider scale than was proposed, will be commenced.

*Mr. President and Honourable Gentlemen of the Legislative Council:*

*Mr. Speaker and Gentlemen of the Honourable House of Assembly:*

It is publicly recognised that the Prohibition Act has not been enforced, and that unlawful practices with reference to the importation, manufacture and sale of liquor, have become general. A measure designed towards more adequate control, and to decrease the many evils which result from law breaking, will be submitted to you.

The excessive cost of public printing and stationery have induced my Ministers to prepare for your consideration, a Bill designed to place the matter under the control of the Colonial Secretary, with a special official in charge as King's Printer. The work of printing, and the supply of stationery it is proposed to submit to tender and contract.

Contracts concerning an enterprise on the Gander River, and a Flour Mill at St. John's, are being reconsidered by my present advisers, and if and when satisfactory to them, will be submitted for your consideration.

My Ministers are giving earnest attention to plans for the development of natural resources to give greater employment, and stimulate the trade of the Colony, and when these have been completed, your approval will be asked.

I commend your deliberations to the guidance of the Almighty for the promotion of the best interests of the people.

It was moved by Mr. Lake and seconded by Mr. Linegar that an Address of Thanks be presented to His Excellency the Governor in reply to the Gracious Speech with which he had been pleased to open the present Session of the Legislature, and that a Select Committee be appointed to draft such Address in Reply.

It was ordered accordingly, and that the following gentlemen be such Committee:—Mr. Lake, Mr. Linegar, Mr. Halfyard, Mr. Hibbs, Mr. Chambers.

The Chairman from the Committee reported that they had considered the matter to them referred, and had passed the said Bill without amendment.

Whereupon, on motion of Hon. the Minister of Finance, the Bill entitled "An Act to Amend the Revenue Act 1905 and Amendments Thereto Schedule E. Export Duties" was read a third time and passed, and it was ordered that the said Bill be engrossed, being entitled as above, and that it be sent to the Legislative Council with a message requesting the concurrence of that body in its provisions.

Mr. Speaker informed the House that he had received a message from the Legislative Council acquainting the House of Assembly that they had passed the Bill sent up entitled "An Act for the Confirmation of an Agreement between the Government and the Gander Valley Power and Paper Company, Limited," without amendment.

Hon. the Prime Minister announced that His Excellency would prorogue the House at three of the clock this afternoon.

It was moved and seconded that when the House rises it adjourn until this afternoon at two of the clock.

The House then adjourned accordingly.

---

TUESDAY, AUGUST 19th, 1924.

The House met at two of the clock in the afternoon, pursuant to adjournment.

Petitions were presented by:

Hon. Minister of Posts from Holyrood, Re Road.

Minister of Agriculture from St. Bride's, Re Fog Alarm.

Hon. Mr. Sullivan from Placentia, Re Breakwater.

Mr. Speaker informed the House that he had received a message from the Legislative Council acquainting the House of Assembly that they had passed the Bills sent up entitled respectively "An Act to Amend the Revenue Act 1905, and Amendments thereto, Schedule E., Export Duties," "An Act Respecting the United Towns Electric Company, Limited," and "An Act for the raising of a sum of Money on the Credit of the Colony for Certain Public Purposes," without Amendment.

At three of the clock, the Gentleman Usher of the Black Rod appeared at the Bar of the House with a message from His Excellency the Governor, commanding the attendance of the House in the Council Chamber. Accordingly, Mr. Speaker and the House attended His Excellency in the Council Chamber.

Mr. Speaker at the Bar of the Council Chamber addressed His Excellency as follows:

May it please Your Excellency:

The House of Assembly has voted the Supply required to enable the Government to defray the expenses of the Public Service. In the name of the House of Assembly I present the following Bills for Your Excellency's assent:

“An Act to Authorize the Montreal Trust Company to do business in the Colony of Newfoundland.”

“An Act Respecting the United Towns Electric Company, Limited.”

His Excellency was then pleased to make the following Speech to both branches of the Legislature:

*Mr. President and Honourable Gentlemen of the Legislative Council:*

*Mr. Speaker and Gentlemen of the Honourable House of Assembly:*

You have given close attention to your legislative duties, at a season so pleasant out of doors that the performance of indoor tasks must have been more onerous than usual, and I am glad to be able to relieve you of them.

Short though the session now about to close has been, the legislation enacted has been of more than ordinary importance, and will, I am confident, be of enduring advantage.

For a period of more than ten years, the finances of the Colony have been disturbed by alternate expansion and contraction, but conditions have this year become almost normal, and there is reason to hope that disturbing financial conditions will cease to recur. My Ministers will endeavour to enforce economy in expenditure wisely, and to aid the prosperity of the Colony by stimulating the development of its resources. Lavish expenditure by preceding Governments, imposing upon my present advisers the hard necessity of providing for the payment of debts contracted by others, has made it quite impossible for the present Government to decrease as largely as they desired the burden of taxation, but the abolition of import duties upon flour and gasolene, and export duty on codoil and whaleoil, is due to their courage and resourcefulness, and they hope to be enabled to still further decrease the burden of taxation, through reforms they purpose to carry out.

It is apparent that economy alone will not sufficiently meet the public needs, and that development of the Colony's resources must be vigorously undertaken. The attractions to tourists offered by the unexcelled summer climate, the beautiful scenery and the unequalled salmon and trout fisheries of this Island, are the assets which can be most speedily turned into cash, and realising that desirable tourists cannot be expected to come to us in great and growing numbers unless good hotels and highways are provided, and the inland fisheries protected and replenished, my Ministers

---

have decided to embark upon a forward movement in these respects, incidentally and immediately providing labor for the unemployed, and ultimately adding greatly to the comfort and prosperity of the people.

Years ago a crude measure to prohibit the sale of alcoholic liquors as a beverage was enacted, the enforcement of which became difficult, and was soon neglected, and later practically abandoned, so that at last its existence became a mockery, and its almost universal evasion a scandal, with resulting lawlessness in many affairs and to an alarming degree. In his Manifesto to the people, upon the eve of the last General Election, my present Prime Minister promised a repeal of the Prohibition Act, and the introduction into the Legislature of an alternative measure, and this, I am glad to say, has now become law, and in due course will be put into force. I anticipate that great good will result.

The work of construction upon the Humber has progressed with unexpected and gratifying rapidity. Paper-making at Bay of Islands is expected to begin next Spring. A Contract has been entered into by my Ministers to secure development in the Gander River Valley, and soon a great addition to the labour-giving industries of the Colony may be expected. The merits of the proposition are so great in the opinion of its promoters that they have not thought it necessary to ask for any guarantee by the Colony, or other financial assistance. The great industry at Grand Falls continues its prosperous operations, and an expansion of its paper-making plant, or a completion of the Sulphite Pulp Plant at Alexander Bay, providing for the development of the Terra Nova and Gambo regions, is expected. Upon the whole, the outlook for steady and profitable employment of labour was never so good in our midst.

Your provision for the acquisition of a suitable Steamer to connect with the railway at Port-aux-Basques, for the re-railing of a portion of the track, and for increasing rolling stock, are timely recognitions of the fact that both passenger and freight traffic are rapidly increasing, and are bound to increase, and an indication of the not distant day, I hope, when the railway will be self-sustaining. Your provision for the improvement of the Dry Dock cannot fail to add to the attractiveness of the Port of St. John's for ships. Its situation and its facilities should make it the most Popular Port on the Atlantic for ships needing speedy repair.

*Mr. Speaker and Gentlemen of the Honourable House of Assembly:*

In His Majesty's name, I thank you for your provision for the public service.

*Mr. President and Honourable Gentlemen of the Legislative Council:*

*Mr. Speaker and Gentlemen of the Honourable House of Assembly:*

I join with you in devout thanks to God for the prosperity and happiness He has granted to our people.

After which the Honourable the President of the Legislative Council, by command of His Excellency the Governor, said:

GENTLEMEN: It is His Excellency the Governor's Will and Pleasure that this General Assembly be now prorogued until Tuesday, the Thirtieth day of September next, then and here to be holden, and this General Assembly stands prorogued accordingly.

H. Y. MOTT,

Clerk.

Minister of Finance and Customs, 1924.

## Budget Speech of Hon. Sir John C. Crosbie, Minister of Finance and Customs, 1924.

### COMMITTEE OF THE WHOLE ON WAYS AND MEANS.

MR. CHAIRMAN,—

In submitting this my first Budget, my only regret is that my incumbency of the office of Finance Minister has been too short to enable me to speak as one having the authority that a full personal knowledge of the financial activities of the past year would give and I am confident that Honourable Members will under these circumstances make due allowance for all shortcomings in connection with such matters as explanations with regard to the minute details of expenditure and so forth.

What I have to say with regard to Budget matters falls naturally under three heads, that is to say:

- (1) The completed year 1922-1923.
- (2) The practically completed year 1923-1924; and
- (3) The Estimates of Revenue and Expenditure 1924-1925.

With regard to (1), the completed year 1922-1923, I do not propose to inflict upon the House a tiresome array of figures dealing with the finances for 1922-1923. A few extracts of a general nature from the Auditor General's report will suffice to acquaint Honourable Members with the position with regard to the finances of this particular year.

The Revenue received for 1922-1923 is as follows, viz:—

#### REVENUE RECEIVED FOR 1922-1923.

Customs .....	\$6,481,068.40
Postal .....	228,882.30
Telegraph .....	175,809.77
Inland Revenue Stamps .....	38,484.52
Crown Lands .....	80,067.35
Liquor Sales .....	540,297.28
Fines and Forfeitures .....	5,785.56
Fees Public Institutions .....	42,755.96
Broom Department Penitentiary .....	7,779.82

Excess Profits Tax .....	24,247.04
Income Tax .....	303,832.19
Mfg. Sales Tax .....	55,014.66
Bank Tax .....	123,905.58
Estate Duties .....	150,000.00
Interest on Guaranteed Loans .....	88,043.00
Taxes and Assessments .....	70,141.45
Miscellaneous Revenue .....	460,657.86
	\$8,876,772.74

The Revenue which I have just quoted falls short of the Estimate made by Sir Richard Squires by the sum of \$76,227.26.

The following comparative statement will show under which particular heads this shortage occurred, viz:—

**COMPARATIVE STATEMENT OF REVENUE ESTIMATED AND  
ACTUALLY COLLECTED FOR YEAR 1922-1923.**

	Estimated	Collected
Customs .....	\$6,900,000.00	\$6,481,068.40

Estate Duties .....	90,000.00	150,000.00
Interest on Guaranteed Loans .....	76,000.00	88,043.00
Taxes and Assessments .....	52,000.00	70,141.45
Miscellaneous Revenue .....	225,000.00	460,657.86
	\$8,953,000.00	\$8,876,772.74
	\$8,876,772.74	
<b>Over Estimated .....</b>	<b>\$ 76,227.26</b>	

The Expenditure incurred for the year 1922-1923 amounted to \$9,127,542.79. This was an increase of \$283,078.61 over the Estimate of \$8,844,464.18 stated by Sir Richard Squires as the amount required to maintain the Public Service of the Colony for the year 1922-1923.

The actual expenditure above noted is for current expenses only and does not include many large disbursements on Loan and Surplus Trust Accounts.

I shall have something further to say with regard to these utterly unnecessary large expenditures later on in my Speech.

But to come to the present subject, the Budget Estimate for 1922-1923 indicated a surplus of \$108,535.82, whereas, on the contrary, the country was actually faced with a deficit of \$857,861.87, not including the extremely large expenditures on Loan and Surplus Trust Accounts to which I have just referred.

This deficit had to be liquidated by a charge on our last Loan Act of 1923.

With regard to the financial affairs of the Colony for the year 1922-1923, I would ask the Honourable Members to refer to the Auditor General's report for that particular year. I would especially draw your attention to his remarks in respect of 'Free Entry' of goods for Government Contractors on account of Government work; with regard to expenditures incurred by Government Institutions for stock and furniture; to the transfer of Manufacturers' Sales Tax from the Assessors Office to the Customs Department. I would commend your attention, also, to his strong comments on the need of greater personal supervision by the Ministers of each Department to the question of adopting the contract system in supplying the several Government institutions; to the matter of extravagance in connection with repairs to public buildings and the expenses on Loan Account; and, lastly but most importantly, to the general want of economy over the whole Public Service to which he referred and with all of which I am in perfect accord. He also recommended the advisability of appointing a Standing Committee of the House on Public Accounts; referred to the excessive cost of Printing, Stationery and Advertising; and requested a re-organization of the system of expenditure on account of Public Charities.

With regard to Loan Expenditures for the year 1922-1923, the following statement will show the saturnalia of expenditure in the services indicated below:

---

**STATEMENT OF LOAN EXPENDITURE 1922-1923.**

Finance .....	\$2,370,038.88
Posts and Telegraphs .....	4,923.19
Agriculture and Mines .....	1,931.75
Public Works .....	2,474,136.81
Marine and Fisheries .....	453,114.77
Public Charities .....	590,756.06
Militia .....	20,591.31
	<hr/>
	\$5,915,492.77
	<hr/>

It would be wearisome to recite the details of this large expenditure to the House, and I shall content myself with referring Honourable Members to the statistical data at the end of the Budget for full particulars. I cannot refrain, however, from referring to the fact that even at this early date (June 30th, 1923) The Agriculture and Mines Department charged above with \$1,931,75 was actually in debt to the Bank of Montreal in the sum of approximately one and one half million of dollars, which sum the Auditor General refused to indemnify the Bank without the necessary legislative authority.

I shall reserve any further comment I may have to make on the financial transactions for the year under observation until I have given the House the information relative to the financial condition of the Colony for the year 1923-1924.

With regard to (2) that is to say the financial position of the Colony during the fiscal year 1923-1924.

The late date at which the House meets enables me to give a fairly close estimate of the result of the Colony's Revenue and Expenditure for 1923-1924.

While it is yet too soon after the close of the fiscal year to finalize the several accounts and so to furnish the exact figures, the several Departmental accounts, so far as expenditures are concerned, have been practically closed. Some items of the Revenue have still to come, but it is possible to estimate these fairly accurately. The Revenue estimated by my predecessor, Mr. Cave, for the fiscal years 1923-1924, was \$9,150,000.-00. The actual Revenue as estimated by me will probably reach \$8,467,000,00.

This would indicate an over-estimate by Mr. Cave of \$683,000.00 on Revenue.

The Expenditure estimated by the same gentleman was \$9,006,153.57 but I consider, in the light of practically closed accounts, that the expenditure will be over \$10,000,000.00.

Mr. Cave under-estimated expenditure therefore \$1,035,450.00, less the Audit Act expenditure (which doubtless he did not contemplate at the time he made up his Estimates). My predecessor's Estimates were therefore \$1,268,450.00 erroneous. Adding to that the Audit Act expenditure and subtracting the anticipated surplus of \$143,846.00 which did not materialize, we arrive at an estimated deficit of \$1,574,600.00.

I attribute the shortage of Revenue to the repeal of the Supertax of twenty-five per cent; to the removal of Export Duty on Fish; and to the placing of Flour, Pork, Molasses, Kerosene and Gasolene on the Free List for the last three months of the past year.

I estimate then that the Revenue which we will receive for the fiscal year ending 30th of June last at \$8,467,000.00, made up as follows, viz:—

#### ESTIMATED REVENUE 1923-1924.

Customs .....	\$6,700,000.00
Postal .....	270,000.00
Telegraph .....	200,000.00
Inland Revenue Stamps .....	44,000.00
Crown Lands .....	100,000.00
Liquor Sales .....	220,000.00
Fines and Forfeitures .....	6,000.00
Fees Public Institutions .....	50,000.00
Broom Department Penitentiary .....	8,000.00
Cable and Bank Taxes .....	70,000.00
Bank Deposit Tax .....	112,000.00
Income Tax .....	335,000.00
Manufacturing Sales Tax .....	40,000.00
Interest on Guaranteed Loans .....	87,000.00
Estate Duties .....	25,000.00
Miscellaneous Revenue .....	200,000.00
	\$8,467,000.00

The Expenditure estimated by me as above amounts to \$10,041,600.00 as shown by the following heads of expenditure:—

#### ESTIMATED EXPENDITURE 1923-1924.

Interest on Public Debt .....	\$3,000,000.00
Finance Department .....	255,000.00
Colonial Secretary's Department .....	85,000.00
Justice Department .....	418,000.00

Education Department .....	850,000.00
Public Charities Department .....	540,000.00
Marine and Fisheries .....	300,000.00
Agriculture and Mines Department .....	105,000.00
Public Works Department .....	1,115,000.00
Postal Telegraphs Department .....	1,340,000.00
Customs Department .....	530,000.00
Liquor Controller's Department .....	46,600.00
Tax Assessor .....	15,000.00
Accountant of Contingencies .....	205,000.00
Military Pensions Board .....	575,000.00
Shipping Department .....	50,000.00
Old Age Pensions .....	100,000.00
Militia Department .....	65,000.00
Miscellaneous Contingencies .....	7,000.00
	\$9,601,600.00
Under Special Warrant Audit Act .....	440,000.00
	\$10,041,600.00
Estimated Revenue as per previous statement .....	8,467,000.00
Estimated Deficit .....	\$1,574,600.00

It is clearly evident, therefore, that the Supply Act last year will have to be largely supplemented, and as a matter of fact I have calculated that the Supplementary Supply required will amount to over \$720,000.00 for the particulars of which I would refer Honourable Members to the Supplementary Supply Act which they will be asked to consider.

Dealing with the expenditure as shown by the accounts and referred to in the Auditor General's report under Section 33 (b) of the Audit Act, which he has brought down to the 31st of May last, I would like to draw the attention of the House to the serious overdrafts authorized in most cases by Order-in-Council which occurred during the currency of the last fiscal year, among which overdrafts I would particularly cite the following, viz:—

#### STATEMENT OF OVERDRAFTS 1923-1924.

##### Customs.

Miscellaneous .....	\$15,603.40
Hire of Steamers S. W. Coast .....	14,304.18

Telephones .....	14,404.73
Construction and Main Line Repairs .....	12,030.82

The total of these overdrafts amounted to \$382,063.19, and the particular reason for drawing attention to these is the fact that with economy they might have been avoided.

The position then of the Colony at the close of the last fiscal year is to my mind a particularly serious one. We have incurred a deficit on the year's operations which I have estimated at approximately \$1,575,000.00.

Against this deficit we have to our credit in the Bank of Montreal the Surplus Trust Fund amounting to \$187,210.61, and that is practically all.

There are some small amounts as yet unallocated in connection with the 1922 and 1923 Loans, but these are all earmarked for a specific purpose and cannot be disturbed.

As I have already stated, I am of the opinion that the shortage in the Estimates of Customs Revenue is due principally to the repeal of the twenty-five per cent. super-tax, the remission of Export Duties on Fish; and the placing of Flour, Pork, Beef, Molasses, Gasolene and Kerosene on the Free List.

At the present juncture, I regret to say that the Colony's finances are in such a condition as not to warrant the repeal of duties on the latter articles, however desirable it would be and however much it might afford relief to our people.

My predecessor, in his Speech, stated that his Government had decided that "the proper policy to adopt to secure an ultimate revival of trade was to make a sweeping reduction in ad valorem taxation on imported goods and to report a deficit."

Well, they did make a sweeping reduction in the ad valorem duties, and illegally repealed the Customs' duties on flour, pork and other articles, and the export duty on fish; and they did incur a notable deficit, which it is my unpleasant task to report, but the revival of trade was due to improved prices abroad, and in no manner or degree to our predecessors.

In a country having a representative Legislature, it alone can impose or repeal taxation, except in those special instances in which it has delegated that power. The repeal here was by an illegal Minute of Council, and at a time when a large deficit had accrued, and overdraft had been made on Banks to pay current expenses. That overdraft this Government has now to ask this Legislature to provide.

However, the result of these several reductions and remissions work out at about \$850,000.00 loss on the twenty-five per cent. Supertax adding the Sales Tax on it; plus the \$187,500.00 on the Export Tax on Fish; and, approximately, \$125,000.00 on account of remission of duties on flour, pork, molasses, etc., for three months, to which I have already referred. Making a grand total of \$1,162,500.00.

I can quite understand any Honourable Member of this House disagreeing with the imposition of the iniquitous twenty-five per cent. Super-tax on an already heavily taxed country on an almost entirely ad valorem

basis; but I have yet to be convinced that any country (after a quarter of a century of English Common law) can reduce the ordinary import duty in the face of annual deficits on the commodities common to all the people. Such a course can only lead to disaster and the insolvency courts. A bear may hibernate in winter and subsist on itself for a certain period; but the time comes when even the bear must become self-supporting.

The shortage between my predecessor's estimate of Customs Revenue and the estimated actual revenue amounts to \$280,000.00.

While this comparatively small shortage (viewed in comparison with the foregoing figures) seems to me to indicate a clear sign of improvement in trade, I think however a wise policy would have been to have made the process of reduction gradual in measure as our finances improved.

Before leaving the history of the past, I wish to make some remarks in connection with the expenditure of the 1921, 1922 and 1923 Loans. I have already made brief reference to these Loans in dealing with the results of the financial year 1922-1923 and 1923-1924; and I should now like to submit the amounts allocated from the same Loans up to the close of the last financial year:

Loan Act 1921 (Whole proceeds of Loan) .....	\$5,960,031.20
Loan Act 1922 .....	5,999,838.50
Loan Act 1923 .....	3,511,237.39

The whole of Loan 1921 has been expended. Practically the whole of Loan 1922 has been allocated by Order-in-Council, and such balances as may remain on these allocations, being earmarked, cannot be disturbed.

As to the 1923 Loan: This Loan was allocated by the Legislature and consequently must be spent on the services indicated in the Act. A small amount of the sum set aside by the Act for roads and public improvements under direction of the Governor-in-Council remains unallocated. For details of these allocations, I beg leave to refer Honourable members to the schedules which are attached to my Speech.

Loan 1921 contains amongst other things an appropriation made by the then Government for a Fishery Supply Guarantee. In reference to this matter, I should like to say that I strongly opposed the measure when sitting on the Opposition side of the House.

My reason for doing this was that I foresaw the abuse which would follow from the granting of such a Guarantee, and my objections at the time have been fully borne out by what has occurred.

The Government advanced money to certain suppliers for the Fishery, to enable them to give supplies. The supplied fishermen paid in whole or in part, but suppliers to whom \$141,423.00 worth of supplies were advanced, have not furnished statements for the adjustment of their accounts. The official who attends to these matters has been interfered with by the political head of his Department in his endeavour to bring the defaulters to account. The unpleasant duty of exacting statements and payments has therefore fallen on me.

Without any further comment I would like to say that the Fishery Guarantee account stands out as an everlasting disgrace to those who were entrusted to take care of the Colony's funds. The present state of the Fund will be found on Pages 23 and 23 (a) of the Auditor General's Report for the year ending June 30th last.

#### LOAN 1922.

With regard to the relief of the unemployed: The way this was undertaken and the mismanagement in the handling of the public funds of the Colony needs very little comment from me. If the employment given out and the moneys used therefor, had been applied to work of more permanent value, there would not be much ground for adverse criticism, but in view of the abuses which have taken place, it is impossible not to find fault.

If employment had been given to those who required labour and graft of every kind cut out, one could sympathize rather than criticize; and one feels it is unjust to blame those who used the pick and shovel when it is considered that those higher up did just as they pleased, taking good care not to neglect themselves, and yet were always ready to blame those under them.

Any sane man knows the Badger-Halls Bay and Deer Lake-Bonne Bay roads were unnecessary. The expenditure on them was simply like throwing money in the ocean. To-day these roads are practically useless and of no value to the Colony. As foreseen by those who opposed this measure, grass is their chief product.

It will be noted that the Badger road cost \$12,500.00 per mile, whereas the Deer Lake cost \$18,000.00. Surely some explanation of this difference in cost should have been given.

As to able-bodied pauper relief: I am too well acquainted with my fellow countrymen to think that they want this kind of relief. Here, again, abuses of every kind took place with regard to the expenditure of so-called pauper relief; and this is a matter which demands a far reaching enquiry.

The original allocation for the Normal School made by Order-in-Council from the 1922 Loan was \$100,000.00. This School Building has cost to date \$335,000.00 and will cost probably \$70,000.00 more for equipment still required and the laying out of the grounds.

An Order-in-Council directed that all goods required by the Contractor for the Building, should come in duty free, although it seems to have been clearly understood that the tender accepted was on the basis of duty paid material. It is estimated that the loss to the revenue from this concession was well in the neighborhood of \$35,000.00.

Adding this to the estimated cost which I have given, we find that the total cost of the school building, fittings and so forth, will be in the neighborhood of \$440,000.00, although the original appropriation made by Order-in-Council under the 1922 Loan was only \$100,000.00.

#### LOAN 1923.

With regard to the expenditure on Pit Props: Well, all I can say, Mr. Chairman and Honourable Gentlemen, is that any comment of mine is unnecessary. It would be rather out of place and this matter can be very easily settled by referring you to the Auditor General's Report and to that of Mr. T. Hollis Walker, K.C. Need I say more? The amount allocated from the Loan to meet the loss on Pit Prop account, is \$1,000,000; not sufficient by at least \$160,000 to cover the actual figures. In his report the Auditor General asks for a special resolution of the House authorizing him to sign the cheque releasing the amount voted to repay the advance made by the Bank of Montreal.

This, then, Honourable gentlemen, is all I can say of the financial affairs of the Colony for the two years we have had under consideration. This Government assumes no responsibility therefor; it states facts as it finds them and leaves criticism to the people of Newfoundland.

Let me turn now to the future. I am free to admit that I approach the consideration of this subject without that confidence in his forecast that a Finance Minister is supposed to have. So much is uncertain; so much is more or less guess work (especially when dealing with revenue) that the financier who can at the beginning of a financial year, estimate with even a fair amount of accuracy, the result of the financial activities of that year in Newfoundland, has yet to appear. I can instance, as corroborating this statement, the huge supplementary supply which has been regularly sought for during the last twenty years.

Let us first examine the present position of the Colony; its financial conditions; its trade; its industries; and particularly the latter two. For, after all, the first is entirely dependent upon them.

With regard to the Trade and Commerce of the Colony generally; I am of opinion that there is a decided improvement during the past fiscal year. The financial condition of any country is bound to be reflected in its trade conditions. That is to say in the value of its imports and exports. And I am happy to be able to say to Honourable members that trade conditions during the fiscal year 1922-1923 have shown an upward trend.

As will be seen by the Table of Imports and Exports for 1922-1923, our total trade exceeded the previous year by over two and one-half million dollars. The value of our Imports exceeded the preceding year approximately one million dollars; while the value of our Exports increased by nearly one million and one-half.

This, Mr. Chairman, is an encouraging sign and one which should give extreme satisfaction to every patriotic Newfoundlander in and out of this House.

I am of opinion that the trade outlook for the coming year should even exceed the figures just quoted, as from present indications it would seem that our fish will realize better prices in the markets abroad than it has done during the past three years. Such a happy condition is due entirely to the law of supply and demand, a law to which I have repeatedly subscribed in this House and elsewhere. And it is due principally to the interference with this immutable law by certain visionaries during the past three years, that this country is in the deplorable condition which has to be faced by me now.

The increased revenue consequent upon improved trade conditions will, I feel confident, enable us to balance our accounts at the end of the fiscal year 1924-1925. And, while we have had to meet deficits by borrowing during the past four years, I hope by the exercise of strict economy, to be in a position to change those deficits into a surplus during the present year. It may be quite true that this surplus may not be a considerable one, but in any case it is quite pleasant to be able to look forward to a surplus of revenue over expenditure (no matter how small) after four years of large deficits; deficits, gentlemen, due to the unlimited and not always well-advised expenditures incurred by those who were entrusted with the public funds of this Colony.

Here, gentlemen, I beg to quote Trade Statistics showing Imports and Exports from 1911-1912 to 1922-1923, inclusive, and I may say that the figures are taken from the official returns compiled at the Custom Department.

While the catch of codfish fell in 1922-1923 as compared with the previous year, by over one hundred thousand quintals, the price was well maintained; and the value of our other exports increased as a whole.

The price of cod-oil, notably, advanced considerably. The export of iron ore in 1912-1913 (taken from the viewpoint of value) was very high. With the exception of 1913-1914, it showed a considerable drop in the succeeding years. I am very pleased to be able to say, however, that during the year 1922-1923, the exports over the preceding year increased more than 500,000 tons in quantity and over a million dollars in value, the greatest value in either war or pre-war times.

In paper, copper and lumber there was a pleasing increase in production as will be readily seen by the trade reports just quoted.

A considerable advance in lobster prices is also recorded; while the export of fresh salmon and the price realized were extremely abnormal.

On the other hand, it was regrettable to see that the output of frozen and pickled herring had declined not only in value but also in quantity. I have arrived at the opinion that this is due to, in many cases, the poor quality of the fish packed for foreign markets. Unless greater care is taken with the packing of herring by our exporters, I very much fear that conditions will not readily improve in the herring trade.

One very hopeful sign of our fisheries this year, is the fact that it will be prosecuted by one hundred and forty four more sail of vessels than the previous year. This is very encouraging and indicates a revival of fishery trade so much handicapped by the too frequent undertaking of relief works by our predecessors in the past—relief works (to quote the Auditor General's report of 1921) which were unproductive in every sense of the word,—except to draw our outport brethren from their natural avocation which was the fisheries.

In this connection I am reminded that about six thousand men are now employed in and about the Humber project. That has relieved the employment situation. From a national standpoint, however, this cannot be looked upon as all gain; for many of these men, if not so employed, would have been engaged in the fishery last year and this, and would have added to our exports at a time when they were profitable.

There is, too, this consideration: that the laboring class has been increased and the fishing class reduced. It may not be easy to provide work for the increased number of laborers. Construction work on the Humber will rapidly decline hereafter, and though woods work will increase and absorb much of the present labor supply, yet new work must, if possible, be found for the excess.

Dissatisfaction has existed over wage rates and living conditions, and the Government has enquired into these matters. The principle of supply and demand works in this matter as in trade generally, and the greatest care has to be taken not to so hamper capital and the cost of construction as to prevent development work.

Labor conditions on the North American Continent are not good at present; many of our expatriated people are now glad to return, and if we interfere too strenuously with employers here, local labor conditions might grow worse.

### TOURIST TRAFFIC.

It would seem as though the tourist attractions of the Colony might be its most quickly realizable asset, but to that end it would be necessary to provide increased and improved hotel accommodation, in St. John's, and elsewhere, to build motor roads, and to protect game and game fish more jealously than heretofore, and in addition to advertise widely to the outside world, the many attractions this Colony possesses for summer and even autumn tourists. The Government is investigating this subject in all its branches, and I am hopeful that even before this short session closes I shall be able to make definite proposals about this matter, looking to the immediate commencement of work.

### ROADS, BRIDGES AND HOTELS.

The wastefulness of building wooden bridges is evident. Many important ones are now in complete disrepair. Under the superintendence of the Government Engineer several fine concrete structures have been erected. He has prepared plans for others. They will be used in connection with the construction of motor roads. Such roads should, of course, be built, not haphazardly, here and there, but as parts of a preconceived whole and the work should be done in a manner calculated to produce both quantity and quality, for while construction will incidentally employ many men, the chief aim should be to open up the natural resources and scenic beauties of the Colony to the admiring eyes of investors and travellers.

As hotels, motor roads and concrete bridges will obviously be for the benefit of posterity, and not merely of temporary advantage, it is proposed to provide for these by a loan bill which I shall introduce later in this session.

Our manufacturers generally are looking forward to better years, and I have no doubt their optimism is justified by the gradually improved conditions of the Colony.

The establishment of a Flour Mill, which Honourable members have been asked to consider, will, I am satisfied, prove a great boon to labour in the city of St. John's.

### RAILWAY.

The condition and operation of the Railway continue to be matters of grave interest. Large capital expenditures cannot long be avoided. Operation at present is under make-shift control. Whether Company,

Board or Government control shall be adopted for the future, is a problem which the Government must seek to solve before you next meet. Largely through the traffic caused by the Humber project, loss on operation was small in 1923-1924, but this traffic cannot be maintained fully, though it will not wholly fail. Next year the Gander project may add its quota. I am of opinion that much saving can be effected in the operating costs of the shipping now attached to the transportation system.

### DOCK.

To make St. John's the popular Port it should be for Atlantic shipping, considerable expenditure on the Dry Dock will be necessary. Its machinery is partially obsolete. Delays cause demurrage charges, and the Dock structure itself demands repairs. Improvements of dock and machinery; a provision for speedy coaling; the acquisition of a speedy and powerful sea-going tug; and co-operation between the Government, the artizans and the laborers, are all factors which would go a long way towards making this Port what its geographical situation entitles it to be,—the repairing station for all North Atlantic Steamers.

Judging from the trade conditions as presented and from my own personal knowledge of trade activities, I am of opinion that the outlook is somewhat brighter for the Colony than it has been for some time past, as a result of which the financial prospect for the Colony has improved proportionately. On that opinion I have based my estimate of the revenue likely to accrue during the coming year. I expect to receive the following:

Customs Revenue .....	\$7,300,000.00
Postal .....	265,000.00
Telegraph .....	200,000.00
Crown Lands .....	90,000.00
Inland Revenue Stamps .....	40,000.00
Fines and Forfeitures .....	8,000.00
Fees Public Institutions .....	25,000.00
Broom Department Penitentiary .....	10,000.00
Interest on Guaranteed Loans .....	88,000.00
Income Tax .....	320,000.00
Business Profits Arrears .....	10,000.00
Manufacturing Sales Tax .....	50,000.00
Bank Tax .....	112,000.00
Taxes and Assessments .....	70,000.00
Estate Duties .....	50,000.00
Liquor Profits .....	200,000.00
Miscellaneous Revenue .....	100,000.00
	\$8,938,000.00

Honourable Members will notice that I have made a considerable addition to the estimate of my predecessor for 1924-1925, and I think I am justified in so doing.

Nobody regretted more than I that the extravagance of our predecessors and the necessity of liquidating the bills incurred by them, threw upon me the duty of recommending to my colleagues, and upon them the duty of agreeing with the cancellation of the illegal and dishonest Minute of Council adopted in April last, one day only before the Legislature met. This Minute rescinded the duties on flour, pork, etc., and those rescinding them knew quite well that these duties must be replaced. With countries as well as with individuals, bills must be paid or insolvency result, and this Colony must not default in its payments and so lose its credit.

It has, however, been decided that in view of the growing cost of flour following upon reports of a decreased wheat crop, and the absolute necessity of gasolene in the fisheries you shall be asked to wholly repeal the duties on these articles.

This may result in a shortage of the amount of revenue I have estimated for 1924-1925, but if so it will be met by enforced economy in some of the public services.

You will also be asked to specially authorize the Government to reduce or wholly rescind the duty on certain other articles, in the hope that improved trade or greater economy may make such reduction or abrogation possible.

Consideration of the Revenue Act, 1905, and its various amendments and of the Report of a Tariff Commission appointed by a preceding Government, has been deferred until we have had time to consider the whole subject, but the matter will be submitted to you at the next Session.

The Controller's Department is now self-contained, paying its expenses from its receipts, and passing over to the Exchequer its profits only. I have placed the revenue from that source at \$200,000.00 basing my estimate on the profits for the last eleven months, and allowing something for a possible increase which may be the outcome of a new policy regarding the liquor traffic, from a stricter enforcement of laws against moonshining and smuggling.

Honourable Members will notice on reference to the Estimates of last year's Revenue, that I have omitted the items of receipts from Civil Service Reduction. The Government are of opinion that the reduction of Civil Servants' salaries has had a rather demoralizing effect on the whole Service; that faithful and efficient work cannot be obtained from a Service

which is notoriously underpaid; so much so that too many of the officials cannot possibly keep out of debt and provide for their families even the barest necessities.

This condition of affairs has unquestionably much to do with the constant demand for pay for so called extra services and overtime, and the proposal for a repeal of the Civil Service Reduction Act is made with the honest idea of, first, enabling all efficient servants of the public to support themselves in a decent manner, and secondly, to see that all extra payments in the Civil Service cease from this date. The Legislature of this Colony votes a salary for a certain position, and the occupant of that position should receive that and nothing more.

During the short time I have had the honor to hold my position as Finance Minister, it has been impressed strongly upon my mind that this matter of granting money for extra services has been grossly unfair. There have been officials in the Service who no matter what their value was, no matter what they did in the way of giving straight, decent service in the stations allotted them, received nothing. If they worked long hours overtime, the fruits went frequently to other officials.

In order to give a straight deal to all, it is my intention to see that this regulation is carried out not only in the letter but in the spirit as well.

I have said this is a great injustice and, as I write, I have before me evidence of the fact that several officials have received for overtime sums exceeding their annual salary, while, as I have also pointed out, we are confronted with cases of hard working officials who never received, or thought of receiving, one cent more than was legitimately voted by the duly authorized body appointed to fix their yearly stipend, namely the Legislature of this Colony.

This injustice, Mr. Chairman and Honourable Gentlemen, has actuated the Government in arriving at the decision of repealing the Civil Service Reduction Act, a decision which has been held out to some of the best men in this country of ours for some years past in the form of a mirage. Our policy in this respect is to deal fairly with all; give favour to none.

In too many cases Finance Ministers have estimated an expenditure which could not possibly cover a constantly expanding public service, trusting to an always complaisant following in the House to pass a huge Supplementary Supply. This Supply, which swells the original votes provided by this House, is mainly caused by overdrafts authorized by Order-in-Council, which Order usually contains the provision "that Supplementary Supply would be taken when the House meets and authorizing the Bank of Montreal to honour overdrawing cheques."

This has been done despite the fact that the Auditor General had notified the Bank that he would issue no further letters of credit by reason of the fact that the votes passed by this Assembly had been exhausted.

My idea of dealing with this situation is to do exactly the reverse. I have estimated our revenue and I intend with the help of my colleagues to fit our expenditure to that estimate, and to see to it that the expenditure is kept within the votes which this Legislature will pass. I regret to say that too little attention has been given in the past by Ministerial Heads to the details of expenditure; and I am now asking them to help me, by exercising an earnest supervision over the minutest details of their respective departments in order that this annual supplemental bugaboo shall not recur during the current year.

In this connection I ask their attention to the 43rd. Section of the Audit Act, which reads as follows:—

“The Deputy Heads of the several departments or the Officers, Clerks or other persons charged with the expenditure of public money, shall respectively audit the details of the accounts of the several services in the first instance, and be responsible for the correctness of such audit.”

Following upon my determination to “make the garment fit the cloth,” I propose to eliminate every item of expenditure which can possibly be done without, consistent at the same time with the real necessities of the public service. In a word, I hope to cut expenditure down to an irreducible minimum. All public luxuries must go. Some of them would be all very well, if they could be afforded, but the position as I see it to-day is that even some more or less necessary services should be curtailed until better times. It will be quite impossible, otherwise, to carry on the public service of the Colony.

Be our revenue what it may, and however strenuous our endeavours to keep within it, we must provide the essentials. What I consider essential (services which if this Colony is to exist at all as a self-governing Colony it must have) I shall set forth later when dealing with expenditure.

I realize to the fullest extent the burden of taxation placed upon the shoulders of our people. I deeply sympathize with them. I observe their cheerful endurance under the trials and forced economies in even essentials which the high cost of living brings in its train. I appeal with confidence to them to bear their burden until growing prosperity enables the Government to decrease it.

Coming now directly to expenditure, I consider as essential the following services from which little if anything can be cut:—

Interest on Public Debt, estimated at .....	\$3,159,000.00
Education .....	822,000.00
Pensions, Civil, Military and Old Age .....	836,000.00
Lighthouses .....	217,000.00
Permanent and Casual Poor .....	242,000.00
	\$5,276,000.00

I estimate the expenditure on the foregoing at \$5,276,000.00, leaving \$3,662,000 of our estimated revenue for the remainder of the Public Service. These latter, containing many items that are indispensable, are capable of considerable reduction and have been subjected to that reduction.

I estimate then the total requirements of the coming year, 1924-1925, which compared with the estimates of 1923-1924, are as follows:—

	1923-1924	1924-1925
Finance Department .....	\$3,655,943.78	\$3,438,110.21
Colonial Secretary's .....	51,554.00	67,179.00
Justice Department .....	382,954.46	341,479.16
Education Department .....	839,851.03	821,842.03
Public Charities .....	441,338.33	376,861.71
Marine and Fisheries .....	346,969.39	333,589.39
Agriculture and Mines .....	95,020.00	78,190.00
Public Works .....	994,416.26	938,098.57
Posts and Telegraphs .....	1,244,465.83	1,146,397.83
Customs Department .....	493,960.50	439,552.25
Liquor Controller .....	79,864.00	—
Tax Assessor .....	14,840.00	14,840.00
Contingencies .....	235,617.00	184,617.00
Military Pensions Board .....	699,766.00	651,766.00
Shipping Department .....	50,000.00	—
	\$9,626,560.58	\$8,832,523.15

This shows a reduction in Estimates of \$794,037.43.

I do not now propose to enter into the detail of the several votes. These with their several changes from the last Estimates, have been placed before you and will be explained by the Minister in charge thereof when the House is in Committee on Supply. Before closing, I should like to draw the attention of Honourable members to the serious state of affairs obtain-

ing for some time past in the Customs Department. Undreamed of conditions have existed in that Department, certain things have been permitted there which no departmental head should have overlooked.

The Auditor General's instructions were frequently ignored, and I find to-day that there are duties outstanding from 1915 to the present date on goods issued to individuals under what is known as "Temporary Permits." These permits were given and the Department neglected to follow up the individuals for collection of duties.

The mismanagement, also, of what is known as bonded warehouses, in which at the present moment very great discrepancies exist, is responsible for the loss of considerable duty owing to the Colony; duty which I fear in many cases will never be collected.

Considerable loss was sustained, moreover, through the presentation of fraudulent invoices which passed through the Customs without proper check.

I shall conclude my remarks on this subject by stating for the information of honourable members, that full enquiry is being instituted into the whole matter.

### CUSTOMS BONDS.

There is another matter in relation to the Customs to which I desire to call the attention of the House. I refer to the large amount due in Customs' Bonds, some \$117,545.41 in all, including interest. Many of these unpaid Bonds date back to 1920; some to 1921 and the latest to 1922. Apparently very little effort has been made by the persons owing this money to pay it. In 1920 some bonds were extended, but since then no extensions were permitted, and some payments on account have been made from time to time. I cannot speak too strongly against the discrimination which permitted the extension of bonds. As far as the present Government is concerned, it is their intention to secure the prompt payment in cash of these moneys, not in promises to pay or extensions.

I have here some statements which will be of interest to honourable members. They are too lengthy to read but they will be printed with my speech and will form an addenda thereto.

I should like, however, to draw Honourable members' attention to the increase in Savings Deposits which occurred during 1923.

At the close of 1922 there was on deposit in Savings' Accounts, the sum of \$20,133,975.51. At the end of 1923, this amount had increased to \$20,340,223.21—an increase of \$176,247.70.

This is a very significant fact and to my mind an indication of that resilient buoyancy for which Newfoundland in her financial history has been famous; and I feel sure that with that earnest co-operation which is so necessary in all serious activities we shall turn the corner in 1924-1925 and enter the straight road to national prosperity and happiness.

Finally, I can assure this House and the whole country, that it is the earnest intention of His Majesty's Government to embark on an entirely new scheme of financing. We have decided that an energetic constructive policy has been necessary for this land for some years past. The policy is long overdue, but you may be sure that if I can secure the faithful co-operation of my fellow ministers in the Government, the time has now arrived and our ship has come home at last.

As I have already remarked, this Government accepts no responsibility for the disastrous effects of the policy adopted by the late Government and our only desire is to remedy the disease which for some years has attacked our island home.

I beg leave to propose the following resolutions:—

- (a) The reduction of present Duty on Spirits in transit.
- (b) Repealing Duty on Flour and Gasolene.
- (c) Giving power to Governor-in-Council to reduce or abrogate Duty on Molasses, Kerosene Oil, Beef and Pork when financial conditions in their opinion warrant same.

#### PUBLIC DEBT.

The Public Debt at the close of the year was as follows, viz:—

Gross Public Debt on July 1st, 1922 .....	\$55,030,027.60
To which was added	
Under 59 Vic. Cap. 25 (Carbonear Streets) .....	7,514.00

29 Vic. Cap. 25 .....	29,703.88	
61, 62 and 63 Vic. Cap. 33 .....	17,654.00	79,776.00

Gross Debt on June 30th, 1923 ..... \$54,957,765.60

There has since been added to the \$54,957,765.60 funded Public Debt on June 30th, 1923, a further Loan of \$3,500,000.00. This was authorized by the Legislature of 1923 for the several purposes indicated below. As will be seen the full Loan has been allocated for specific purposes by the late Government:—

To liquidate deficit of the Colony for 1921-1922 on current account .....	\$ 855,426.72
To liquidate estimated deficit for 1922-1923 .....	850,000.00
To meet estimated deficits accounts of Pit Prop, Relief and Unemployment .....	1,000,000.00
To cover estimated loss on Railway Operations for 1923-24 .....	400,000.00
To cover deferred expenses of the Militia Department ....	114,573.28
To pay expenses in connection with Soldiers' Graves .....	40,000.00
For Roads and Public Improvements .....	240,000.00
	<u>\$3,500,000.00</u>

There has also been added to the Funded Public Debt of the Colony a further sum of \$2,000,000 under the Railway Settlement Act of 1923, for the purchase of the Railway.

The total Funded Debt, therefore, with which the Colony is burdened stands to-day at \$60,457,765.60. Added to this Funded Debt a Temporary Loan which was secured from the Imperial Government of \$1,946,666.66 we find the Public Debt of the Colony totalling \$62,404,432.26.

## REPORT OF PATRIOTIC FUND

To His Excellency the Governor in Council.

MAY IT PLEASE YOUR EXCELLENCY:

We have the honor to forward you, for submission to the Legislature, the Report of the work of the Newfoundland Patriotic Fund for the year 1923.

The operations of the Fund were conducted during the past year on similar lines to those of 1922, assistance being given in emergencies to veterans of the war, to their families, and to those of deceased members of the Forces, and also in aid of cases where the Pensions regulations did not apply.

In this way a sum of about six thousand dollars was spent during the year. There is now a balance on hand of \$2,224.93. This, with some smaller amounts, which we hope to secure will, we trust, enable us to carry on during 1924, but unless we can secure other resources our operations will have to terminate then.

Representations have been made to former governments respecting a sum of about \$30,000, the total of amounts paid to the dependents of certain classes of men on active service for the period prior to the granting of separation allowances to such men. Had such separation allowances been granted at the outset we would not have furnished the dependents of those men with assistance, as they would have been adequately provided for by such separation allowances. When subsequently this provision was granted and made retroactive we proposed to deduct therefrom a sum equivalent to that paid to the beneficiaries. But it was felt by the Government of the day that such a step would cause trouble, and it was decided to pay them in full, assurance being given us that the amount would be made up by a grant from the public funds. We urged this as it would enable us to continue our work for a longer period. Later a new Administration found themselves unable to make good this undertaking and the matter has rested since. If this amount could be got—not perhaps at one time, but in amounts of \$5,000 or \$6,000 a year, sufficient to meet our yearly outlay, it would enable our work to be continued for another five or six years, by the end of which period there should be few, if any, claimants, who would not be in a position to maintain themselves.

The financial position of the Fund as at the end of 1923, was as follows:—

During the year the following titles were issued:

(1)	110 Grants of agricultural land, containing 1795 acres, 3 roods, 23 perches, the fees paid on which amounted to .....	\$ 726.30
(2)	6 Licenses to Cut Timber over an area of 1517½ sq. miles, at an annual rental of .....	3,035.00
(3)	567 Licenses to Search for Minerals, over an area of 9125 sq. miles, the fees paid on which were .....	18,250.00
(4)	9 Ninety-Nine Year Leases of Mining Locations, for an area of 33 sq. miles, the first year's rent of which amounted to .....	660.00
(5)	4 Fees Simple Grants of Mining Locations, for an area of 26 sq. miles .....	_____

Of the Licenses to Cut Timber issued, only one was for an area not previously held under License; the others being in exchange for Licenses previously held. The new limit licensed contained an area of sixty square miles, so that the nett increase in annual rentals payable under last year's issues will only amount to \$120.00.

## REVENUE

The Revenue received during the year under the undermentioned heads is as follows: The corresponding revenue for the year 1921-22 is given for comparison.

	1921-22	1922-23
Mining Licenses and Leases .....	\$24,259.00	\$30,986.32
Licenses to Cut Timber, rents and royalties ..	49,136.49	48,282.71
Agricultural Grants and Survey Fees .....	488.40	797.32
	_____	_____
	\$73,883.89	\$80,066.35
	_____	_____

The revenue of the Department for the year under review exceeded that of 1921-22 by \$6,182.46. Practically the whole of this increase is accounted for by the large number of mining locations taken up in the vicinity of Stag Bay, Labrador, where Gold was reported to have been discovered.

### LUMBERING OPERATIONS

The result of the operation of the various mills for the production of sawn lumber shows an increased output of 883,284 feet, B.M., with an increased value over the output of the previous year of \$107,860.92.

The following is a statement of the output and value of lumber produced by mills operating under authority of the various Acts:

	Ft. B.M.	Value
4 mills operated by Licensees of Timber limits under the Crown Lands Act .....	4,768,261	\$143,046.78
82 mills operated under License Section 1, Saw Mills' Act .....	1,179,000	29,474.98
91 mills operated under License Section 2, Saw Mills' Act .....	3,662,170	109,862.10
	\$9,609,431	\$282,383.86

Statement of the result of lumbering operations for the year 1922-23 (No. 6) is being forwarded herewith.

The Anglo-Newfoundland Development Company's cut of plupwood for the year is reported as being 129,913 cords.

The exports of Forest Products for the year, particulars of which have been obtained from the Customs Department, are as follows:

Paper .....	56,386 tons .....	Valued at .....	\$5,052,141.00
Mechanical Pulp .....	21,680 tons ..	Valued at ..	364,289.00
Manufactured Lumber	2,026,938 ft. B.M. ..	Valued at ..	76,100.00
Pitprops & Pulpwood .	52,947 cords ..	Valued at ..	323,145.00
			\$5,815,075.00

### FOREST PROTECTION

The Report of the Chief Woods Ranger submitted herewith (No. 7) and the Summary of Reports of the Newfoundland Fire Partol (No. 8) continue to show satisfactory results. The number of fires reported was less than the previous year, the total number being only 260 as against 586 the preceding year. None of these fires attained serious proportions or did any considerable damage.

---

### MINING OPERATIONS

No new mines were developed during the year under review. The Dominion Iron & Steel Co., Ltd., the only company operating, reported the following productions, namely:—

Iron Ore at Wabana . . . . .	921,578 tons	.. Valued at ..	\$1,382,292.00
Limestone at Aguathuna . . . . .	220,028 tons	.. Valued at ..	220,028.00
			\$1,602,320.00
Total Value . . . . .			\$1,602,320.00

The Customs returns show the following exports of minerals during the year:—

Iron Ore . . . . .	1,004,138 tons	.... Valued at ....	\$1,706,017.00
Copper . . . . .	3,000 tons	.... Valued at ....	30,000.00
Limstone . . . . .	201,250 tons	.... Valued at ....	100,625.00
			\$1,836,642.00
Total Value . . . . .			\$1,836,642.00

### GOVERNMENT ANALYST

The Report of the Government Analyst herewith (No. 9) shows that the work of this Department still continues to increase very considerably, the number of samples submitted having increased from 788 in 1920 to 14442 during the year under consideration, and the number of determinations from 1830 to 1920 to 3009 in 1923; showing that the public are realizing more and more the value of the work done by this Department.

### SURVEYS

Practically no survey work was done during the year, the Surveyors being employed in general office work.

It will not be possible to have any survey work, on anything like a large scale, undertaken until the Colony is in a position to provide sufficient funds for that purpose.

I have the honour to be,

Sir,

Your obedient servant,

J. F. DOWNEY,

Minister of Agriculture and Mines.

**REPORT OF CHIEF WOODS RANGER FOR YEAR 1923.**

Hon. J. F. Downey,

Minister of Agriculture and Mines,

St. John's, Newfoundland.

Dear Sir,—

I beg respectfully to submit for your information this my Report for the year 1923.

I am pleased to be able to state that the work in connection with my duties as Chief Woods Ranger does not call for a long report this year.

On reviewing the work of the past year, I beg to state, as in my previous reports, that December, January and February are three months in which I get very little work to do outside, consequently it affords me opportunity to clear up my office and straighten my work for the coming season. During this time I make up and address hundreds of fire warning notices which I mail in April to all parts of the Island. These notices give the public an opportunity to see and read for themselves what the Forest Fire Laws are and how necessary it is to observe them. I find this to greatly assist my work in the prevention of forest fires.

The latter part of February and March I make a foot and dog team cruise of about 200 miles, over different parts of the country, in order that I may become acquainted as much as possible with the places most necessary to be patrolled by fire wardens, and to gain other valuable knowledge in connection with the work I have to do.

The season for the setting of forest fires opened this year about the usual time, which is between the 1st and the 10th of May. I then put on a few wardens in the most dangerous places. The dry weather only lasted a few days and the remainder of the summer proved to be one most fitting in every way for the protection of forest fires.

By authority from your Department and a request from the Secretary of the Fire Patrol Committee, Grand Falls, I put on a few fire wardens before the work of patrol commenced, at the N. W. Grade, Port Blandford, and in the vicinity of Joe Batts Pond, and got some of the brush and grass burnt off the sides of the railway track, a work which is badly needed to be done. The section men have burnt up quite a lot of the old ties this Fall but there is quite a lot of brush and grass, in very dangerous places, which need to be burnt off. The brush should be burnt in the Fall of the

year and the grass in the Spring. If this were done it would greatly facilitate the keeping down of fires, as live cinders which drop from the ash-pans of the locomotives would have nothing to feed on off the track. If more of this could be done it would be money well spent.

The increased number of trains running, in consequence of the extensive operations at Grand Lake and the Humber, will require more wardens next season, particularly on the west side of the Island. Even if the Company employ their own wardens the Government will want more. Now is the time, Sir, to give this subject the fullest consideration before we get a repetition of the destruction as outlined by you in your address before the Rotary Club a short time ago. The development of our forest resources is only now properly springing into life and we can look back with sadness on the vandalism practised upon our most priceless heritage, and in order to save what we have the public as a whole must be brought to understand what we are trying to accomplish. The thing is to keep the timber supply in excess of our demand, and that is impossible while present wastage continues.

It is, however, gratifying to be able to state that the number of forest fires is decreasing considerably every year, as will be shown in this report further on.

It is also pleasing to be able to report to you that not a single forest fire got away from any fire patrol man this season, and only one last year. I think we can have no better proof of the value and good work of the fire patrol. The Velocipede is a great improvement on the foot patrol, and the work can be done more thoroughly, but, Sir, I would like to draw your particular attention to the fact that the value of the velocipede drops in proportion to the length of section over seven miles which it has to run over: in other words, seven miles where trains are running regularly, as over the Main Line,—is quite long enough for a velocipede to do the work approaching thoroughness; that is, to follow all trains. The real benefit or profit is not to be found in the saving of wages by having long sections, but in the saving of forest. We cannot afford to lose one acre of forest, neither can we afford to export pulpwood or pit props. This cannot be realized too soon.

The total number of fires the past summer, as reported from all sections of the Fire Patrol including those under the supervision of the Fire Patrol Committee, Grand Falls, is as follows:—

	Miles	Men	May	June	July	August	Sept	Oct	Total	Cost of Patrol
Bonavista Branch .	88	8	7	2	9	4	2	3	27	\$3,027.50
Trepassey Branch .	106	17	0	2	6	5	7	1	21	3,030.00
Heart's Content do.	42	4	0	4	6	5	1	0	16	900.00
Carbonear . . . . .	12	2	0	0	0	0	0	0	0	300.00
St. John's Roads ..		8	0	0	0	0	0	0	0	1,410.00
Main Line . . . . .	78	8	0	10	7	9	8	3	37	2,197.00
Clode Sound and Chandlers Reaches	40	2	0	0	0	0	0	0	0	703.08
Amherst Cove . . . .	6	1	0	0	0	0	0	0	0	242.00
	372	51	7	18	28	23	18	7	101	\$11,809.58

The following submitted by the Secretary of the Fire Patrol Committee, Grand Falls:

Number of miles patrolled . . . . . 282, 30 men, 159 fires

Total number of fires this year . . . . . 260 Last year . . . . . 454

There are 194 less fires reported this year than last year and 780 less

Grand total . . . . . 654 miles, 81 men, 260 fires,  
all of which were put out by the Fire Patrol.

During the past year I have visited all sections under patrol by fire wardens, except Trepassey Branch. I have travelled by train, track motor and motor boat, nearly five thousand miles, and with my office work I have found plenty to do, indeed more than I could properly attend to.

The work of the past season has been well done by the Fire Patrol in all sections. Not a single fire got away from any warden. A lot of inspection work has been done with the track motor cars, one controlled by the Committee at Grand Falls, and my car, also by Foreman Ranger Albert Stares.

than in 1921.

---

I respectfully recommend that provision be made to erect small houses where necessary for the wardens by the time the season opens next year. I trust this Report will meet with your approval.

I have the honour to be,

Sir,

Your obedient servant,

(Sgd.) THOS. HOWE,

Chief Woods Ranger.

Port Blandford,

November 21st, 1923.

**REPORT OF GOVERNMENT ANALYST**

Hon. J. F. Downey,

Minister of Agriculture and Mines.

Dear Sir,—

May I respectfully submit to you my report for the year ending December 31st, 1923.

I have limited my report to a bare statement of the number of samples and the number of determinations; detailed reports on the samples have been submitted during the year to the Departments and individuals concerned.

I would like to draw your attention to the comparison of the number of samples for the years 1920-1923 (inclusive).

You will see at a glance the great increase in the work of my Laboratory; the number of samples in 1923 is very nearly double the number of samples in 1920.

The increase is partly due to the large number of milk samples sent in by the Public Health Department and the Community Nurses. Very few samples were sent in during 1920 but 319 samples were submitted during 1923.

The testing of the City milks has brought about a great improvement in the quality of the milk supplied to the consumers.

In 1921 twenty eight per cent. of the milk samples tested were below the legal standards; in 1923 only three and seven tenths per cent. failed to measure up to our requirements.

The value of the Laboratory as the final authority on the quality of the Marine Anmila Oils exported from this country is being realised more and more as the years go by and I am sure that the Cod Liver Oil Inspectors would be the first to acknowledge its usefulness.

Apart from the testing of the numerous samples that are being submitted, the Government Laboratory is being recognised more and more, year by year as a place for people to come to for information and advice on mineral and chemical matters.

A good deal of my time has been devoted to that business—and I am getting more and more dependent on my staff for the actual analyses of the samples.

My staff, as you know, are all residents of St. John's, who have been trained by me to do the work of my Laboratory; they are gaining in proficiency and experience every year but they are not satisfied with their remuneration.

Their work is of a highly technical nature and it would be impossible to replace them to-day at anything like the salaries they are receiving.

I understand that they have respectfully submitted to you a statement of their grievances and I hope, Sir, that you will carefully and sympathetically consider their claims.

At the beginning of August 1923 the Government requested me to supervise personally the reducing of rum at the Controller's Department. I have attended at the Department on seventy eight days from August to the 31st of December between the hours of 1 p.m. and 4 p.m. and during that time I have personally supervised the reducing of rum to the value of \$180,000.

This work takes up a good deal of my time and the only way in which I could cope with it was by putting in as much time as possible between the hours 1 p.m. and 3 p.m.

I should like to see the Agricultural section of the community taking a greater advantage of the facilities we have here for its protection, all imported animal feeds should be tested for food values, and all imported artificial manures should be subjected to chemical analysis for manurial values.

I have the honour to remain,

Sir,

Your most obedient servant,

D. JAMES DAVIES, B.Sc., F.I.C., F.C.S., F.G.S.,

M. S. Public Analysts, Eng.,

Government Analyst.

Annual Report of the Registrar General of Births  
Marriages and Deaths for the Year  
ended Dec. 31st, 1923.

---

---

Registrar General's Office,  
St. John's, Newfoundland,  
May 12, 1924.

Sir:—

I have the honor to submit the Annual Report of Births, Marriages and Deaths for the year ended December 31, 1923.

The total Registrations for the year were 12,049, viz.:—Births, 7,046; Marriages, 1,357; Deaths, 3,646.

Compared with 1922 there is a decrease of 346 Births.

Compared with 1922 there is a decrease of 84 Marriages.

The Death Rates for the Dominion 14.16 and for the City 16.51 per 1,000 of the population compares very favorably with the lowest rate on record, viz., in 1921 when it was 13.29 and 16.06 respectively.

The number of children who died before completing twelve months of age was 738, which is a rate of 104.74 per 1,000 living births and is the lowest rate ever recorded for the Dominion. The rate for the City 102.82 is also a record. The Community Nurses and Association for Child Welfare are leaving no stone unturned to give the baby a chance to live.

The number of Deaths registered for the year from Pulmonary Tuberculosis was 344, being a ratio per 1,000 of population of 1.33 and is the lowest ever recorded in Newfoundland. It is also pleasing to note that the rate for the City 1.09 is a record. The campaign against this disease has received invaluable assistance from those in charge.

The number of Deaths from Pulmonary Tuberculosis and the rates per 1,000 of the population for the past nine years are as follows:—
