SECOND SESSION, FOURTH GENERAL ASSEMBLY, 13TH OF VICTORIA.

His Excellency's Speech on opening the Session.

Mr. President and Honourable Gentlemen of the Council:

Mr. Speaker and Gentlemen of the House of Assembly:

I have convened you at the usual period of the year, for the consideration of the affairs of the Colony, relying with full confidence on your deliberations on the important interests committed to your charge being resumed in a spirit which will attest your zeal for the public welfare.

In the late lamented death of ADELAIDE, the Queen Dowager, we have to deplore the loss of a most excellent Princess, and which will be mourned by all classes of Her Majesty's subjects, to whom her many eminent virtues rendered her the object of universal esteem and affection.

You will all, I am confident, unite with one voice in thanksgiving to Almighty God that He has been so graciously pleased to avert from this land that grievous pestilence, the Cholera, with which other parts of this Empire have been so sorely afflicted.

It is also a cause of grateful acknowledgment that a bountiful Providence has, during the past season, vouchsafed an ample reward to the toils of our hardy fishermen, whose prosperity is essential to the welfare of the Colony, and by the successful result of whose labours the energy of commercial enterprise is promoted.

It is further pleasing to me to be able to inform you that the results of the Agriculture of the Colony for the past year have more than realised the anticipations of those favourable to the experiment; and the progress made during that brief period has been such as to lead to the most encouraging anticipations for the future. The promotion of this branch of industry will merit your fostering care and encouragement, whether viewed in the light of a powerful auxiliary to the staple trade of the Colony, or as a means of providing some additional subsistence for our rapidly increasing population, for whose support the fisheries alone are becoming now inadequate,

As the Education Act will expire at the close of the present Session, the state of education in the Colony will necessarily engage your attentiou; from the Reports received of the condition of many of the Schools, a more efficient system of instruction is urgently required. Although our financial condition will not, I regret to say, admit of any increase being made to the present grant, yet the system is susceptible of much improvement; and I hope the Session will not be allowed to pass without the adoption of some measure that will secure a more effective superintendence of the Schools generally throughout the Colony.

28th and 31st January, 1850.

11

His Excellency SIR J. G. LE MARCHANT, Governor.

I will cause to be laid before you copies of several Despatches which have been received from Her Majesty's Secretary of State for the Colonies.

Mr. Speaker, and Gentlemen of the House of Assembly :

The Accounts and Estimates will be laid before you. I feel confident of your readiness to provide for all that is necessary for the public service; and in the expenditure of the moneys placed at the disposal of the Executive you may rest assured that the utmost economy consistent with the exigencies of the Colony will be observed.

Mr. President, and Honourable Gentlemen of the Council:

Mr. Speaker, and Gentlemen of the House of Assembly :

I feel assured that your best endeavours will be exercised to afford, by wise legislation, all practical extension and developement to the trade and productive capabilities of this Island; and in the measures calculated to effect these important eads, and in your labours for the advancement of the welfare of all classes of the community, you may rely upon my cordial co-operation and support.

The House of Assembly having withdrawn, His Excellency was pleased to retire.

SECOND SESSION, FOURTH GENERAL ASSEMBLY, 13TH OF VICTORIA.

We participate with your Excellency in the grief so unfeignedly felt by all classes of Her Majesty's subjects at the demise of the late Queen Dowager—a Princess, the memory of whose many eminent virtues will be long and affectionately cherished.

We acknowledge with deep humility the gratitude due by us to the Almighty Disposer of events, in having averted from this Island the fearful pestilence with which other portions of the Empire have been so grievously afflicted.

With heartfelt thankfulness we also acknowledge the blessings of a bountiful Providence in having vouchsafed to our hardy fishermen—whose prosperity is so essential to the welfare of the Colony—an ample return for their labours during the past season.

It is gratifying to us to be informed that the Agriculture of the Colony during the past year has been attended with such satisfactory results. To the encouragement and extension of this branch of industry, the value and importance of which in affording additional means of subsistence for our increasing population are selfevident, we shall not fail to give our best care and attention.

The state of education throughout the Colony, and the revision of the Act about to expire, with a view to the adoption of a more efficient system of instruction, shall receive our most attentive consideration.

We thank your Excellency for the promise to lay before us copies of Despatches received by your Excellency from the Secretary of State for the Colonies.

In conclusion, your Excellency may rest assured of our earnest endeavours being used, in co-operation with your Excellency, to adopt such measures as are best calculated to develop and increase the productive capabilities of this Island, and to promote the welfare and happiness of all classes of its inhabitants.

Select Committee report draft of Instructions to Conferees on Bill for the Limitation of Actions on Real Property. The Honourable the ATTORNEY-GENERAL, from the Select Committee appointed to draft Instructions to the Conferees on the subject of the amendments of the House of Assembly on the Bill entitled "An Act for the Limitation of Actions and Suits relating to Real Property," reported a draft thereof, as follows:

His Excellency Sir J. G. LE MARCHANT, Governor.

INSTRUCTIONS TO CONFEREES.

Her Majesty's Council have requested this Conference with the House of Assembly upon the amendments made in the Bill sent down from Her Majesty's Council, entitled "An Act for the Limitation of Actions and Suits relating to Real Property, and for simplifying the remedies for trying the rights thereto," for the purpose of acquainting the House of Assembly that they do not concur in the first amendment made by the House of Assembly in the said Bill, whereby it is proposed to expunge the 18th Section, because, by the omission of the provision contained in this Section, a period exceeding the limitation of twenty years, and capable of being extended to nearly double that period, would, in opposition to the principle of the Bill, be requisite to bar a party from recovering landed property, owing to the mere circumstance of a concurrent right or interest in the same property accruing to him during his present estate or interest in possession, before the lapse of the first period of twenty years, and without any actual change in the circumstances of his relation to the property.

That the absence of such a provision would tend to disturb titles acquired under long possession, which it is one object of the Bill to quiet and settle, and would confer upon a supine party a privilege not extended to others, virtually in as meritorious a position and entitled to equal consideration—a privilege resulting merely from a circumstance by which his estate or interest *in possession* may be confirmed or extended, but by no means necessary to the establishment of his right of possession.

Instructions to Conferees on Bill above referred to.

It will be perceived that the 2nd and 5th Sections of the Bill protect the estates and interests of Remainder-men, Reversioners, and all parties entitled to any future estate or interest until the time when these respectively become estates or interests in possession; while the saving clause in the Section proposed to be expunged gives to a claimant the full benefit of his concurrent interest upon a contingency creating a new state of circumstances, and enabling him to enforce his rights without injury to those of other parties whose possession in the absence of such contingency the Bill is intended also to protect.

The Council beg leave to remind the House of Assembly that the Section is a transcript of a Section in the Imperial Statute now for many years the Law of England, and was adopted, doubtless, after the most mature consideration of its effect as part of a code by which rights to the recovery of landed property should be governed; and viewing it as merely carrying out the principle of the Bill, while its absence would extend a peculiar indulgence to a class of persons possessing in justice no peculiar claim to such indulgence, Her Majesty's Council trust that the House of Assembly on further consideration may recede from this amendment.

SECOND SESSION FOURTH GENERAL ASSEMBLY, 13TH OF VICTORIA.

Ordered-that the report be received and adopted.

[COPY.]

No. 107.

Downing-Street, 11th May, 1849.

SIR,-

I transmit for your information and guidance copies of a Correspondence which has passed between this department and the Boards of Treasury and Admiralty, relative to the establishment of a revised Table of Fees for the Vice Admiralty Court at Quebec, together with a copy of the joint report of the Queen's Advocate, the Advocate of the Admiralty, and Mr. Rothery, on this subject.

The result is that the Table of Fees (of which I enclose a printed copy) has been recently established at Quebec, under the authority of an Order of Her Majesty in Council, dated the 2nd of March, 1848.

You will bring these documents under the consideration of your Executive Council, with a view to the adoption of any measures which the Legislature of Newfoundland may deem expedient for making the same scale of fees applicable to the Courts of the Province under your Government.

With reference to the communications made to this Board by direction of Earl Grey, on the 26th August, 1846, and 17th June last, respecting the establishment of a tariff of Fees for the Vice Admiralty Court at Quebec, and to the previous correspondence on that subject, I am commanded by the Lords Commissioners of Her Majesty's Treasury to transmit to you the enclosed report from the Queen's Advocate, the Advocate of the Admiralty, the Registrar of the High Court of Admiralty, and Mr. Rothery ; and I am to request that in submitting the same for the consideration of Lord Grey, you will observe to His Lordship that as the arrangement for remunerating the Judge, and partly remunerating the Registrar and Marshal of the Court, by salaries to be provided for by the Provincial Government, and also the tariff of Fees submitted in this report, are, with very trifling exceptions in conformity with propositions of the Committee of the Canadian Executive Council, approved by the late Governor-General, Lord Grey may possibly not deem it necessary that the

subject should be further referred to the authorities in Canada, and in such case my Lords would be prepared to cause the report to be forwarded to the Lords of the Admiralty in order that the requisite steps may be taken for the establishment of the table of Fees by the authority of Her Majesty in Council, as provided for by the Act of 2 and 3, Wm. 4, cap. 51.

Adverting also to the propositions which have been submitted to the Secretary of State for modification of the Fees levied in other Vice Admiralty Courts in the North American Provinces, I am to request you will further move Lord Grey to cause my Lords to be informed whether His Lordship is prepared to make any reference on the subject to the Governments of those Colonies, which would seem a requisite preliminary to the establishment in them of a similar tariff, inasmuch as the adoption of such a tariff would involve the necessity for provisions, as in the case of Canada, for the payment from Colonial funds of salaries to the Judges and other Officers of the respective Courts.

Vice Admiralty Court of Quebec.

the second second the second war the second s

In obedience to the reference made to us respecting the establishment of a table of Fees to be taken by the Officers and Practitioners of this Vice Admiralty Court, we have taken into our consideration the table of Fees framed and established under the Act of the 2nd of Wm. the 4th, c. 51, also the Order of Her Majesty in Council, dated the 20th of November, 1835, which annulled and revoked such table of Fees so far as it had been made applicable to this Vice Admiralty Court; we have also had reference to a variety of documents connected with this subject, and to a form of table of Fees submitted by us in August, 1843, for the consideration of Her Majesty's Secretary of State for the Colonies; and we have also perused and fully considered the letters from the Colonial Office to the Treasury, respectively dated the 26th of August, 1846, and the 17th of June, 1847, together with the several documents transmitted with the said letters ; and we have moreover specially directed our attention to the report of a Committee appointed by His Excellency Lord Metcalfe, late Governor-General of Lower Canada, for the purpose of revising the aforesaid proposed form of table of Fees; and we have also taken into our consideration the whole of the evidence given before the said Committee, together with a report of a Committee of the Honourable the Executive Council of Lower Canada. And we are of opinion that as it has been customary for the Judge of the Vice Admiralty Court to receive a salary for the performance of his official duties, and as we are further instructed that such Judge has hitherto invariably united in his person a higher and more lucrative judicial appointment, together with that of Judge of this Vice Admiralty Court, we concur in the opinion expressed by the Honourable the Executive in Council, that the Judge of this Vice Admiralty Court should be paid a salary of £200 per annum out of the provincial funds of the Colony, and not be permitted to receive any Fees from any of the Suitors in the Court.

We are further of opinion that the Registrar and Marshal should be paid partly by salary and partly by a reduced or moderate scale of Fees; and we think that the salary of the Registrar should be £100 per annum, and that of the Marshal should be £50 per annum, in addition to the Fees to which they will respectively be entitled for the duties they may have to perform.

We advert to that part of the report of the Committee which alludes to the Merchants Seaman's Act, the 7 and 8 of Vic., cap. 112, wherein they express their regret that the jurisdiction of this and other courts of Admiralty in respect to Seamen's wages in cases under £20 had been taken from those Courts and transferred to Magistrates, and the Commissioners suggest the repeal of this part of the Seamens' Act. We consider, however, that it would not be within the scope of our reference to give any opinion on this subject; but we think it right to direct attention to that part of the Commissioners' report which states that this Act will have the effect of taking away the greater part of the Fees proposed to be taken by the Officers of this Court of Vice Admiralty.

We also think it advisable to refer to that part of Lord Cathcart's letter, of the 28th July, 1846, which transmits several of the documents to which we have adverted, in order, as His Lordship states, "that they may be submitted to the proper officers before the final enactment by Her Majesty in Council of a tariff of Fees for the several Courts of Vice Admiralty in British North America," and to observe that the Vice Admiralty Court at Quebec is the only Court to which the several documents we have had before us in any manner relate, and inasmuch as it is the only Court where the Fees established by the said Act of the 2d and 3d of Wm. 4, cap. 51, has been annulled and revoked by Order in Council, consequently the table of Fees to be taken in all the other Vice Admiralty Courts in British North America must be made conformably to that Act of Parliament until such Act be revoked by Order of Her Majesty in Council. On this point, however, we think our safer course is to refer to that part of the report of the Committee wherein they state "we have not failed to advert to the desire which has been expressed, that if practicable, a tariff should be found applicable to all Colonies in North America ; but in the absence of information as to the practice and relative position of the different Officers of the Vice Admiralty Courts of the other Colonies compared with that of Canada, we have felt that we best discharged the duty imposed upon us by confining ourselves to suggesting what we conceived to be the most desirable for the Vice Admiralty Court of this Province."

The following is the proposed table of Fees to be taken by the Officers and Practitioners of the Vice Admiralty Court at Quebec :—

Supplementary Rules.

The Rules and Regulations established by the King's Order in Council of the 27th June, 1832, are not to be construed to have set aside the former practice in the Courts of Vice Admiralty, of allowing the Defendant to require from the Promoter to Libel with Sureties, unless the Promoter should be admitted by the Court to his juratory caution.

From the shortness of the season of the navigation at the Port of Quebec, and the danger and risk to ships towards the close of the navigation in the autumn, from even so short as twenty-four hours' notice of bail to answer an action, this period of notice of bail, as provided by the 11th Section of the above Rules and Regulations, shall not be required, where the Parties who are proposed as the Bail make oath that they are respectively worth more than the amount for which they are proposed as Bail or Security, over and above the amount of all their just debts.

DESPATCH

From the Secretary of State for the Colonies to His Excellency the Governor acknowledging receipt of a Despatch enclosing Address from the House of Assembly on the subject of the future tenure of Office.

[Copy.] No. 108.

SIR,-

Downing-Street, 14th May, 1849.

80

I have to acknowledge the receipt of your Despatch, No. 15, of the 10th of April, forwarding an Address and a Resolution which has been lately passed by the House of Assembly of Newfoundland, on the subject of the future tenure of office in that Island.

2.—I concur in the opinion expressed by the House of Assembly in Committee, that much future inconvenience may be obviated, if all persons who may be henceforward appointed to offices in Newfoundland, of the class specified in their Resolution, should be apprised at the time of their receiving their appointment, that such offices are to be held upon what is termed a Political Tenure, in the event of what is commonly called the system of Responsible Government being extended to that Colony. I shall accordingly cause due notice of this condition to be given to every person receiving an appointment from the Crown to an office under your Government, which comes within the meaning of the Resolution. It gives me much satisfaction to add that I consider the House of Assembly entitled to credit for the judgment and discretion with which they have acted in suggesting that this notice should be given, and reserving for future and more deliberate consideration the question as to whether the change in the system of administration which has been proposed should be adopted.

3.—I am bound at the same time to express my conviction that until the wealth and population of the Colony shall have increased considerably beyond their present amount, the introduction of the system of what is termed "Responsible Government" will by no means prove to its advantage. From causes to which it is unnecessary for me to refer, the institutions of Newfoundland have been of latein various ways modified and altered; and some time must unavoidably elapse before they can acquire that amount of fixity and adaptation to the political wants of society which seems an indispensable preliminary to the further extension of popular Government. I must refer you, therefore, to my Despatch of 6th July, 1848, as containing views which I have not as yet seen any reason for altering.

I am, &c.

SIR,-

I have to acknowledge the receipt of your Despatch, No. 30, of the 8th of June Iast, enclosing a Petition from certain inhabitants of St. John's, praying for a Government based on an enlarged and extended system of Representation, with a departmental Government, and Executive responsibility.

You will acquaint the Petitioners that I have laid their Petition before the Queen, and that Her Majesty was pleased to receive it very graciously; but I have not been able to advise Her Majesty to make any change in the present institutions of Newfoundland, which appear to me well calculated to meet the wants of the present state of society in that Colony.

My Lord,-

I have the honour to enclose herewith a copy of the reply which has been made by the Treasury Department of the United States to the application which, in obedience to the instructions contained in your Lordship's Despatch No. 28, of the 18th ultimo, I addressed to that Department, for a statement shewing, for the information of the Legislature of Newfoundland, what Bounties and

Drawbacks are granted by the United States Government in support of their Fisheries on the Coast of Newfoundland. Mr. McClintock Young informs me that no returns are made which would enable the Department to designate the number of Mexican vessels engaged in the Cod and Mackerel Fisheries at each particular place where those fisheries are carried on; he furnishes me, however, with a Statement shewing the total amount of Bounties on Salt Fish exported, and of allowances to vessels engaged in the Bank and Cod Fisheries generally during the years 1844, 1845, 1846, 1847, and 1848; together with a Statement of the total amount of American tonnage employed in Cod and Mackerel fishing during those years, the rates of Bounties and Allowances to vessels so employed, and extracts from the Acts of Congress of 24th February, 1828, and 20th April, 1836, containing regulations regarding the Mackerel Fisheries.

Her Majesty's Government have had under their consideration the Act passed by the Legislature of Newfoundland during their recent Session, intituled (No. 72) "An Act for granting to Her Majesty certain Duties on Goods, Wares, and Merchandise imported into this Colony and its Dependencies."

Although Her Majesty's Government do not consider the rates of Duty levied for Revenue purposes, or the general provisions of this Act, to be objectionable, they cannot give their sanction to those parts of the Table of Duties which provide for a differential distinction in favour of certain articles when imported from British Possessions in the West Indies, of which they are the produce, or

from the United Kingdom. On this subject I transmit for your information and guidance the accompanying copy of a Letter from the Board of Treasury to the Lords of the Committee of Privy Council for Trade, dated 5th October last, explaining the objections entertained to a similar Act which had been passed by the Legislature of New Brunswick. Those objections apply with equal force to the present enactment the present enactment. Newfoundiand in the mouth of April, 1849, indicated (No. 71) " An Act to repeal certain Daties of

SIR,-

W. L. BATHURST,

With reference to your letter, dated 21st: June, transmitting for the opinion of this-Board three New Brunswick Acts, Nos. 1807, 1811, and 1813, I am commanded by the Lords Commissioners of H. M.'s Treasury to state that my Lords have had the Acts of the Legislature of New Brunswick therein submitted to them, under their consideration; and as regards, in the first place, the Act No. 1813, for "imposing duties for raising a revenue," I am to request that you will observe to the Lords of the Committee of Privy Council for Trade that my Lords conceive that the enhanced rates of duty on Foreign Goods, for which this Act provides, to be entirely at variance with. the intentions of Her Majesty's Government or of the Imperial Parliament in authorising the repeal, by Colonial Legislative authority, of the duties heretofore payable under the Imperial Act for regulating the Trade of the British Possessions abroad. MERGERE

I am also further to state, that although my Lords, taking into consideration the great inconvenience and confusion that would unavoidably result from the immediate disallowance of this New Brunswick Act, abstain from recommending such disallowance, especially as the assent of the Lieutenant-Governor of the Colony would seem to have been accorded under an impression of some ambiguity in the instructions which had been conveyed to the Colony on the subject; they deem it necessary to suggest that the Lieutenant-Governor should be explicitly apprised that he is not to assent to, or permit to come into operation, any local enactment further continuing the differential duties of the Act in question, or making discrimination in any other respect between duties on the produce and manufactures of the United Kingdom or of other British Possessions abroad and those on the produce and manufactures of other countries, without the express approval and authority of Her Majesty's Government. I while to solar oil relience and the transmood evening of the original

that such renewal would be more properly effected by the repeal of the Colonial Act whereby the operation of that part of the Imperial Act has been suspended, than by the imposition of new discriminating duties by Colonial Legislation.

I am to request that you will further acquaint the Lords of the Committee of Privy Council for Trade that my Lords do not consider the provision of the 46th section of the Act No. 1807, "to provide for the collection and protection of the Revenue of the Province," which relates to the distribution of seizures, as constituting any objection to the Act; or that there is any other reason for withholding any requisite confirmation either of that Act or of the Act No. 1811, "for the better prevention of illicit trade."

The original enclosures contained in your letter are herewith returned as requested.

THE steady success of the treatment of the insane, upon the principle of non-restraint, during the past two years, at Palk's Farm, has added another proof to those recently given in other countries of the practicability of its application to insanity, even under very adverse circumstances. Yet I conceive it to be not altogether out of place, to give a brief review of the causes which led to the establishment of this temporary retreat, and of its true character; lest the curative measures there adopted may appear to have produced inadequate results, notwithstanding the complete disuse of chains, straitwaistcoats, and every other means of mechanical restraint. For, to the public ear, a Lunatic Asylum at St. John's conveys the idea of an institution adapted in every way to the purpose of caring for and curing those afflicted with the disease of insanity, and not of a temporary abode, where a thousand ex. pedients are resorted to, to supply in some degree the requisites that are always at hand in Asyla of the present day.

I will, therefore, sketch, in a few words—

16.

THE INSTITUTION, PROGRESS AND PRESENT CONDITION OF THE PROVISIONAL LUNATIC ASYLUM, DECEMBER 31st, 1849,

Suggested from the same reasons as those which operated in originating the present County and other Asyla in England, viz., the wretched condition and cruel treatment of the insane in hospitals, poor-houses, and private lodgings. Funds for the erection of a suitable building were voted by the Legislature in the Session of 1846; but upon a very careful examination of the subject, made by Mr. Purcell, the architect, on the one hand, and myself on the other, at the instance of the Government, touching the necessary accommodation to be provided for the care and treatment of Lunatics, under the system of non-mechanical restraint, it became obvious that the sum voted (£1500) was insufficient. And having been directed to ascertain what would be an adequate sum, we determined, after patient calculation, that £3000 would be required; upon which the Legislature, at the instance of the Government, with ready benevolence, voted a second sum of £1500 (1847). In the mean time a delay of twelve months had occurred in commencing the projected Asylum. nin or neiding an

Upon my appointment (1846) as Physician and Superintendant of the Lunatic Asylum, commencing my duties by directing the organization of plans for the new building, it had repeatedly struck me, that a degree of certainty not otherwise attainable, might be attached to the joint proceedings of Mr. Purcell and myself, and so insure to the Colony full value for the contemplated outlay, if I could have the opportunity afforded to me of comparing the actual state of the buildings, and of the patients therein, of the best Asyla in England, with the plans projected by ourselves for the St. John's Asylum and its future inmates. I therefore proposed to the Government, in 1847, that as the improved system of treating lunatics had been carried out on a very extended scale with great success, since my opportunity of seeing it in the interval between 1832 and 1837, and as the arrangements of the buildings themselves had been also much improved-if the Government would allow me a salary, however small, from the date of my appointment, I would visit the best Asyla in England and France, at my own expense; and so insure the erection in this town of the best kind of Asylum obtainable, upon the best models; thereby preventing the possibility of a large sum being thrown away upon a public building, (useless as to its intended purpose,) which, from the peculiar requirements of an institution affording means for the care of lunatics in a state of comparative liberty, might have so easily occurred

The Government did me the honour to approve of and adopt my offer, and the reception of my report to the Government upon my return to St. John's, and that of my report of last year, embodying some of my observations at home, by the Government and Legislature, leave me no room to suppose the proches in y or H = apprication to mountly, that my exertions were without success. ceive it to be reat allogether out of place, to sire a bit

I HOLDY STREET, SHIT TO WARDS WITH

Corrected in some things and established in others, regarding my views of the system of mechanical non-restraint, in the treatment of the insane, I benefitted by personal observation of the effect of good treatment, and by communication with those excellent physicians who had practised it : and the professional architectural details of the new Asylum I submitted to the examination of the resident architect at Hanwell, requesting him, if necessary, to furnish me with an entirely new plan, irrespective of that of Mr. Purcell and myself, as we had no object in promoting the adoption of an inferior plan, beyond the question of expense, £3000 being our limit. Upon this (although the sum appeared too small to the Hanwell architect) that gentleman undertook to do as I requested, and further, upon the commencement of the building at St. John's, he promised to select and purchase the necessary items.

at the Hanwell contract prices; thereby ensuring the supply of a cheaper and better article through his experience and position, than could be procured in general, and providing against the casualty of a bad or inappropriate material or manufacture being sent out. In constructing his plan, I desired him to provide for the heating of the building by steam or hot air, should its adoption be hereafter deemed advisable. Before leaving Hanwell, as I could not get the plan furnished in time to bring with me, I of course bargained for its price, and with great liberality, Mr. Harris agreed to take £15 sterling instead of £20, which was his charge, upon my representing to him that I was employing him, in some degree, upon my own responsibility.

The plan referred to, in every way satisfactory in itself, awaits the time when the rapidly improving condition of the Colony shall have so far advanced as to justify the Government in erecting the long-projected Lunatic Asylum.

Upon my return from my mission, I was painfully convinced that the Government, from the embarrassed state of the finances of the Colony, had determined that the erection of a Lunatic Asyhum should be deferred for a considerable time. But having gone so far into the matter, upon my urgent representations, as the cottage which had served for a fever hospital was still in the hands of the Government, I was instructed by his Excellency to fit up this small building as a temporary retreat for the insane, and to commence their proper treatment, in so far as circumstances would permit. I need not say how cheerfully I set to work to effect a long-cherished object, even situated so differently from what I had hoped and reasonably expected to have been at the commencement of my undertaking. And whatever has been accomplished during the two years occupation of Palk's farm, in carrying out a new system, has been done without additional cost to the Colony; for, as I shewed in my report for 1848, the rent, wages, and all other charges forming the annual expenditure of the Provisional Asylum, did not, even for the first year, amount to so much money as had been incurred annually under the old system in the Hospital. During these two years, my duties have been to in-

struct the attendants, from day to day, to treat the meane themselves, and to superintend the economy of a constantly increasing household, besides the difficult task of attempting to provide internal and external accommodation, by a sort of daily patchwork, for lunatics in a state of freedom combined with security.

But during the past year (1849) a great increase of the numbers of resident insane patients has taken place, viz., from 23 to 42, being an increase of three-fourths. The increase of expense, however, has been but one-third, including the cost of 10 other patients treated during the year. These 10, making, as appears in the annexed table of cases, a total of 29, for the past year alone, exclusive of the 23 remaining at the close of 1848; numbering, therefore, altogether 52.

To provide accommodation for 19 additional lunatics, some of whom were of violent character, and to provide also additional assistants so that no lunatic need be confined, taxed the resources of the establishment to the utmost, and has inevitably increased the expenditure, though, as shewn above, by no means in an equal relative proportion.

In 1848 it was found that the diet cost 6s. $9\frac{3}{4}d$. a week for each person, but at the present date the diet costs 4s. $9\frac{3}{4}d$. each per week; the increase of numbers during the past year having enabled me gradually to effect the reduction without curtailing the allowances.

Annexed is the Diet Table.

I am happy to be able to say in this place, that the comforts and care bestowed upon the insane, in the Asylum provided for them, has not been without fruits. The condition of the insane is at length unquestionably much ameliorated in this country, notwithstanding the immense difference between what it now is, and what it might and I hope will ere long, be, in a proper Asylum. The beneficial results produced during the past two years have, in some instances, fairly surprised me, much as I had reasonably expected; and I would fain that all those who feel any interest in the insane, could witness these things and judge for themselves. The amount and kind of care and watchfulness which the insane require, when under treatment, if good results are expected, is, both from physicians and attendants, however, by no means trivial.

As an example of the delicate task of treating the insane I will mention what occurred to me a few days since.

One of my patients, at one time a violent maniac, but latterly more tranquil, having been an inmate two years, to my very great delight spoke to me in a rational manner; said he hoped soon to be well, that he felt a change in him, that he recollected and deplored his past state which it had pleased *God to visit* upon him, doubtless for wise purposes. That he begged to tell me that when he used to call himself God, and to say that God spoke in and through him, that it was not so at all,—only whatever had been the matter with him had caused him to say so, &c., &c. In short, this maniac was

becoming a reasoning man, and, as in so many instances, recollected all that had happened to him; so curiously, that he remarked-Doctor, you came into my room one day, (twelve months previously,) and took one of the potatoes off my plate and ate it; now, Doctor, it is very strange, but the reason I wouldn't eat my dinner that day was because you had touched it, and I could not bear, and cannot vet, that any one shall meddle with or touch the victuals that are brought to me. His insanity was not all gone, but a vast change was suddenly apparent. Just at the turn of the tide, as it were, was this man's mind, and a false step on my part might have replunged him into the darkness of insanity. The next day I found him repeating every word I said, as he did formerly in the height of his disease, in a mocking manner, answering nothing to questions; and I was much distressed lest the light of reason had been but a glimmer, preceding imbecility or death, as is sometimes the case. In a few minutes, however, as I became silent, he turned towards me, and said-Doctor, I was repeating everything you said to me just now, as I used to do when I could not help it; something made me do it then, and just at this moment I felt it, but now it is gone. This mocking fit has not returned, and there is every hope of the young man's recovery. I have stated this circumstance of his case to shew an example of a principle which is applicable in various degrees to all cases of insanity, viz., the cure of the disease depends upon a watchful care and instructed observation, not to be obtained without the walls of an Asylum, private or public. What was apparently inevitable, if this mocking fit, the result of departing insanity, had caused irritation and erroneous management on the part of the person having control over this patient? The favourable moment might have been lost for ever. night and downlinest file santhy she has gradually improved, is toleraldy in allignor, frequently reade

An Asylum is a place of retreat for the afflicted, and is neither to many people a pleasant place to visit, nor is it fitting at all times that visitors should be encouraged, certainly never when prompted by idle curiosity. But, on the other hand, besides the relatives of the insane, who are always welcome at fitting times, when the patients do not suffer from it, many persons would do well to make occasional visits to an Asylum, if they come as friends. Insanity would thus become better understood in general,

and more sensible opinions would be entertained regarding it.

It is with the greatest pain that I have to refer to my report of last year for a true statement of the general condition of the Asylum, as I indulged in the hope that my former representations would produce such an effect as to cause the immediate adoption of measures for the erection of a suitable building; the more so, as the Legislature did me the honour to approve of and print the report. I can only refer, therefore, to my first report on this subject, merely remarking that I have not therein drawn an imaginative picture, but stated facts which may be verified to-day.

It is, however, my duty to petition for a provision being made for the holding of religious services in the Asylum at regular periods. I believe a very moderate annual sum would prove sufficient for the purpose, even so little as $\pounds 26$; so that, alternately, my Asylum friends might each week have the benefit of attending the service of the church to which they severally belong. I have been asked by a lunatic, before the room full, "Doctor, are we all heathens in this place, as I never see any religion at all?" I should be glad of an answer, for I had none to give.

At the same time that I earnestly proffer this petition, I bear willing and grateful testimony to the occasional visits, during the past two years, of the Reverends Mr. Bridge, Mr. Forristal, Mr. Walsh, Mr. Condon, and Mr. Brewster, who have from time to time administered to the spiritual wants of the Asylum inmates, especially to three at the hour of death.

I feel so strongly upon this point that I venture to express the opinion, that for a country to take charge of the bodies of the insane, and to leave their souls unprovided for, is the greatest of morak crimes. Several of the insane at the Asylum are fond of praying, and who shall say their prayers are not acceptable? In an appendix to my report of last year it may be seen that at La Saltpetrière, as well as at Hanwell, Charenton, &c., the insane attend at public religious services, with the greatest decorum and advantage.

It is with sincere gratification that I draw attention to the two worst cases of insanity, reported upon last year.-1st. The case mentioned at page 5 of my former report ; Mary -----, &c., admitted December 7, 1847-" A frightful object, in filth and rags, lower limbs contracted, knees touching the chin. She could not support herself in a sitting posture, having been lying so long in one position that she seemed to have no legs at all, they were so closely doubled upon her body. She spent the whole day and night in roaring and cursing, saying she was on fire for her sins, and entreating every bystander to throw her into the sea, as she was unfit to live. The calls of nature were to her as to the brutes. She tore every article of clothing put upon her, refused to be washed, struggled with and struck the attendants, and seemed to be past remedy. She had been five years and a half insane at the timeof her admission into the Asylum." This poor woman has completely recovered, and will this spring. return to her friends in an out-harbour. The second case is also mentioned at page 5 of my former report, and from being one of the most distressing cases ever witnessed, her cries disturbing the Asylum. night and day, almost incessantly, she has gradually improved, is tolerably intelligent, frequently reads to amuse herself, and is never affected by the dreadful pain in her head which formerly caused her frightful crying fits, and from being an object of horror to the sight, she has become a pleasing looking woman. Of the cases dismissed, convalescent, one from a state of periodical acute mania, the satisfactory intelligence has reached one of the Roman Catholic Clergymen of this town, from Ireland, that the recovery is complete and permanent; and the other two convalescents, one of Conception Bay, and one of St. John's, continue in a sound state of mind.

In providing accommodation for the great increase of our numbers during the past year, and for the general safety under the circumstance of several violent lunatics being added to the former inmates, a linhay, 45 feet in length, has been built at the back of the house occupied by the male patients, and has been divided, by very strong partitions, into seven bed-rooms, thereby enabling me to separate thirteen male patients from the rest at night; and this proportion of single-bedded rooms in an Asylum containing 23 male patients, is the smallest that could be adopted compatible with safety.

A separate bed-room for two male attendants, immediately adjoining that of the patients who sleep together, has been built, and a store-room also for the male wards.

The privies have been enlarged, and pitched wooden drains laid down from them, in consequence of unwholesome and dangerous effluvia having been generated near the old privies, last summer, about the time when the cholera was to be dreaded as a possible visitant. These drains are now so managed that no accumulation in them is possible, with ordinary attention, either in summer or winter.

At the road side a clap-board fence has been put up, 123 feet in length, in consequence of the unceasing annoyance which the female patients were exposed to from the idle, thoughtless and malicious portion of the passers-by. It is indeed to be regretted that the Asylum is so much exposed to

observation from both roads, for to such a height did the insolent curiosity of some evil-disposed persons attain during last summer, that I was obliged to apply to the Government for protection from the police, as the fences were scaled, the attendants defied, and the lunatics excited and made a mock le faland, and the moniter of recent cases, compared with the of.

In the female division of the house an additional strong room has been built.

It having been found that the well afforded no water in dry weather, and that much time, at very serious inconvenience, was in consequence occupied in bringing water from the river, &c., I applied to Mr. Minto, engineer of the water company, for the loan of the boring apparatus; and that gentleman having applied for and received permission to lend it, not only did so, but was kind and liberal enough to superintend the tedious operation of boring through the solid rock in the well. The principal part of this labour was performed by alternate parties of the insane. Some blasting with gunpowder, after the boring had been completed, effected the necessary object, and the establishment now possesses an abundant supply of water.

In addition to the work already mentioned, a small field of about three-quarters of an acre has been rented, adjoining the garden, for the double purpose of keeping off the idle by a good fence which has been put up along its outer boundary, and of giving the male patients some employment in cultivating it. The profit upon the field for 1849, as may be seen in the account, is £8 16s., which, added to the value of the fence, viz., £5 18s. 6d., is equal to £14 14s. 6d.; labour being free.

In conclusion, I would observe that the constant encouragement and support which the institution has received, through my hands, from his Excellency the Governor; and the rare appreciation, by the honourable the Colonial Secretary, of the nature and difficulty of making the experimental trial of the non-mechanical restraint system of treating the insane, in so ill-adapted a place as the cottage at Palk's Farm, have been hitherto the foundations of its success, and for which I cannot be sufficiently thankful. But until the Government has it in its power to build an Asylum on the scale provided for the purpose by a wise and benevolent Legislature, I cannot but regard myself, as, indeed, I am also regarded by some of the Asylum inmates, in the light of a gaoler as well as a physician to the insane. Respectfully Sheweth,-

That Memorialist has been nearly 21 years teaching in this community. That many, very 1007 many youths, having profited by his instruction, and now filling various lucrative and honourable situations, may be referred to as evidence of his services and efficiency. That these services and this efficiency gained him patronage and competency, but only competency, while equal competition lasted between him and others in his vocation. But Memorialist regrets to say that this equal competition (which in teaching as in trade would benefit the public,) has been seriously affected, and now about to be wholly destroyed, by Legislative enactments to promote education,

That the endowments granted to denominational Schools have affected the interests of your Memorialist, in common with other private teachers; but the endowments for superior education have, Memorialist respectfully avers, peculiarly affected him, as by these endowments the emoluments of his most lucrative classes have been nearly lost to him, not so much by a decrease of pupils as by a decrease of fees. That regarding the arrangements by which education is to be afforded to the middle classes, Memorialist feels that successful competition must be hopeless to him.

That a consequence resulting from Legislative endowments to promote education, proving ruinous to a private individual whose whole life and energies have been spent in promoting the same object, is a grievance which Memorialist trusts your Honourable Council will not deem unworthy of consideration, and that justice and wisdom may alike distinguish your Honourable councils,

That a Bill has passed the House of Assembly, and is now before your Honourable House, entitled "An Act to amend an Act passed in the Seventh Year of the Reign of Her present Majesty, entitled ' An Act to provide for the establishment of an Academy in St. John's."'

That by the existing Act your Petitioner is entitled to a due proportion of the Fees received from the Pupils, after the payment of the just incidental expenses, together with a School-house, School Furniture, Fuel, &c.; but by the Bill before your Honourable House, the Masters of the Academy are proposed to be made subject to these expenses from the Fees, should they prove sufficient, and if not, from their own salaries, a principle greatly detrimental to the emoluments of the present Masters.

That by the existing Act a Board of Directors is appointed, with certain powers with reference to the School, which principle, opposed as it is to the general practice of the older countries, has been proved by experience in St. John's to be highly detrimental to the well-being of the Institution ; yet the Bill before your Honourable House proposes the startling expedient of multiplying difficulties by providing three such Boards to govern or direct one Academy, whence much greater injury may reasonably be anticipated.

That not to trespass too far upon the patience of your Honourable House by enumerating the older British Institutions, your Petitioner will merely point your attention to the recent Imperial Statute granting an annual sum of Twenty-one thousand pounds for the establishment of Colleges in Ireland, where no Directors or Managers are appointed to clog their working ; but, as a further sum of Thirty thousand pounds has been granted under the same measure for the erection of the necessary buildings, the Board of Works are appointed Trustees to carry out its provisions in that respect.

TO BELINGER ON THE LOUIDER SCHOLD SHE TO STRATE That a School presided over by two competent Masters must necessarily be presumed to be more attractive to parents than when the same School is reduced to the superintendence of one, and hence, and with the drawback of so many Boards, it is not unreasonable to expect that the fees derivable from the new institutions would be less than those derived under the present system.

ROOM MALINA IN STARL

That under the existing law, Three Thousand Pounds have been granted for the erection of a Building, which erection was to have been carried on by the existing Board ; but, in the present measure, this Board is proposed to be annihilated, while no provision appears to endue either of the new Boards, or all of them collectively, appointed as they are to be upon antagonist principles, with power

to provide that Building; and yet the Masters of the Academy are to be compelled to provide Schoolhouses, &c., until the erection of an Academy, which no body or individual is empowered to accomplish.

Under all these circumstances, your Petitioner most respectfully prays your Honourable House by the re-consideration of the said Bill, to do justice to all parties affected, and, as in duty bound, he will ever pray.

Humbly Sheweth,

That by a disastrous Fire that unaccountably broke out in the Wesleyan Chapel in this Town on the morning of the 7th instant, the whole of that neat and commodious edifice (which, at considerable expense, had but recently undergone a thorough repair,) was completely destroyed.

That in consequence of this unfortunate event, a large body of professing Christians, amounting to somewhere about seven hundred souls, have been deprived of the benefits of a place of worship.

That considering the heavy draught upon the means of the Congregation for the repairs above mentioned, the narrow circumstances of a very large proportion of those who for a series of years, in common with the great bulk of their fellow Colonists, have had to contend with bad voyages, failing crops, fires, and other visitations with which Almighty God in his wise but inscrutable Providence has seen good to chastise them—weighing also the probable amount of pecuniary aid which Petitioners may obtain from their sympathising friends here and elsewhere—they see it impossible to provide for themselves another suitable building within any reasonable period, unless your Honourable Council will, in the exercise of the same consideration which led you to assist other denominations similarly circumstanced, grant a sum of money to make up their deficiencies. That Petitioners have no need to remind your Honourable Council, that, as a denominational body, the Wesleyans constitute one-sixth of the whole population of the Island, and that consequently they have borne (and, may Petitioners be permitted to add, cheerfully borne,) one-sixth of the burthen of all grants awarded by your Honourable Council to other denominational bodies, who, by the same destructive agent, have been subjected to the like privation, while this is the first time that any Wesleyan Congregation in the Island have been induced to appeal to the Legislature on any such occasion.

That after a due estimate of the cost of the building, on the most economical scale, and setting against it their probable resources from all quarters, (exclusive of what your Honourable Council may be disposed to grant them,) there will be a deficit of at least £500—an amount the lack of which might well deter them from commencing the undertaking.

THE PETITION OF THE UNDERSIGNED, MERCHANTS, TRADESMEN, HOUSEHOLDERS, AND OTHERS, INHABIT-ANTS OF ST. JOHN'S AND ITS VICINITY,

Humbly Sheweth,

That your Petitioners, resident Inhabitants of St. John's and its vicinity, have witnessed with great pleasure for many years past the beneficial results of the labours of the Newfoundland School Society in this Island, which they mainly attribute (under God) to the sound principles upon which its fundamental laws are based, and to the Catholic spirit in which its operations have been carried out.

Instituted at a period (nearly thirty years since) when this Colony was almost without any Educational appliances, it has pursued the even tenor of its way through evil report and through good report, holding out the advantages of a good education to all parties, without distinction.

That your Petitioners confidently affirm this system has worked well, the proof of which is to be found at the present time in the Society's Schools, composed of children of all denominations in the

and School Curnitare.

localities in which they are situated.

That in a country like Newfoundland, consisting of small and widely-scattered settlements, containing members of several denominations of christians, it is next to impossible to carry out any exclusive system of Education, whilst the expense to the Colony, even in making the attempt, must be very great.

That the Newfoundland School Society has spent between Forty and Fifty Thousand Pounds Sterling in this Colony alone in the work of Education since its commencement, arising from contributions made in Great Britain, in addition to the liberal support of your Honourable House and the generous donations of local contributors.

That the Society expends annually in this Colony the sum of One Thousand Two Hundred Pounds Sterling, beyond the sum of Five Hundred granted to it by the Legislature; by these strenuous efforts in the cause of Education, aided by the well-known character of the Schools, your Petitioners hope that this valuable Society will continue to merit and obtain the patronage and support of your Honourable House.

That this Society has all the resources and machinery at its command for carrying forward and

perfecting its important work without much additional outlay and trouble-in School Buildings, in facilities for obtaining competent Teachers, and in a depôt replete with the most approved Books and School Furniture. FERRICA

Your Petitioners, grateful for the support which your Honourable House has so liberally granted to the Newfoundland School Society, respectfully and earnestly pray that your Honourable House will be pleased to renew and continue the grant heretofore made to that Society, that being effectually aided in its scholastic labours it may persevere in its undertaking, which your Petitioners firmly believe has proved and will continue to prove of lasting benefit to this Colony and very acceptable to their fellow-colonists generally.

AND READERS, AND OTTERS, INDIANA COTTERS, INDIANIT.

We, Her Majesty's dutiful and loyal subjects the House of Assembly of Newfoundland, in Legislative Session convened, respectfully pray that your Lordship will be pleased to direct that the opinion of Her Majesty's Law Advisers may be taken, for the information and guidance of the Assembly, upon the following case :--generous donations of local contributors,

In the year 1832, an Act of the Imperial Parliament, entitled "An Act to continue certain Acts relating to the Island of Newfoundland, and to provide for the appropriation of all duties which may hereafter be raised within the said Colony," was passed, whereby the Sum of Six Thousand Five Hundred and Fifty Pounds was reserved out of all duties collected in this Island under any Act of Parliament, to defray the salaries of the Governor or Administrator of the Government, the Chief Justice and Assistant Judges, the Colonial Secretary, and Attorney-General of this Colony. In the year 1843 the duties collected under Imperial Acts having failed, in consequence of the repeal or diminution by the

APPENDIX, No. 32,

Imperial Government of duties previously imposed, to produce an amount sufficient for the defrayal of the salaries above mentioned, the Local Legislature, at the recommendation of the then Secretary for the Colonies, passed an Act entitled "An Act to extend and continue certain provisions of an Act of the Parliament of the United Kingdom passed in the second and third years of the Reign of His late Majesty King William the Fourth," whereby the said Salaries were made chargeable upon the Colonial Revenue. From the passing of the Act first above mentioned up to the year 1844, the Salaries thereby reserved were discharged in Dollars at the rate of Four Shillings and Four Pence Sterling each, but in that year a change was adopted in the mode of payment, and the said Salaries were then, and ever since have been, paid in Dollars at the rate of Four Shillings and Two Pence Sterling each, whereby the Salaries of the several functionaries above named were much increased.

PARTERNER'S ASSERT

We beg further respectfully to state that all monies mentioned in any Act of the Local Legislature, whether imposing duties or penalties, or granting monies for any purpose, are, and always have been, without express enactment to that effect in any of these Acts, (except the regulation contained on that subject in the annual Revenue Act,) received, recovered, and paid in Dollars at the rate of Four Shillings and Four Pence Sterling each, at which rate the accounts in our Courts of Justice and in Public Offices are kept, and all monetary transactions for Sterling are adjusted and settled, and at which rate Dollars are valued in the Blue Book.

We beg further to state that, with the permission of the Imperial Government, the Local Legislature in last Session passed an Act repealing all duties levied under Imperial Acts, so that at present the only duties raised in the Colony are levied under a Colonial Revenue Act, by which Dollars are made payable at Her Majesty's Customs at Four Shillings and Four Pence Sterling each.

Upon application to the Executive Government in the last Session for the reasons and authority upon which such change in the mode of payment was made, the Assembly were furnished with the

Documents contained in the Appendix to their Journals of 1849, from page 617 to page 628.

The Assembly pray the opinion of Her Majesty's Law Advisers as to whether the change of payment of the Reserved Salaries in Dollars from Four Shillings and Four Pence to Four Shillings and Two Pence, was and is authorised by law; in other words, they desire to know at what rate these Salaries if discharged in Dollars, the principal and almost only foreign coin with determinate sterling value in this Colony, should be paid. The Assembly presume that as copies of the Colonial Acts, Journals, and Blue Book above referred to, are to be found at the Colonial Office, it is not necessary they should transmit herewith written copies of the several Documents necessary to form an opinion upon the question herein proposed.

JOHN KENT, Speaker,

HOUSE OF ASSEMBLY,

That your Petitioner, having already incurred a considerable of p.0681, AnaM 4161 ch invention, respectfully trusts that, inasmuch as such invention promises to be of great public utility, and is in its unture a mitional improvement, and essential to the safe mavigation not only of the aboves of the Island of New foundhand, so peculiarly liable to fogs, but also of the coast of British America generally, hast exampt be of general adoption or the source of great emolument to your Petitioner,—your Honourable House will be pleased to pass an Act enabling your Petitioner to take out a Patent for the

APPENDIX, No. 33. PETITION

Of Thomas Robson, for Patent for an Improved Self-acting Fog Bell.

TO THE HON. THE LEGISLATIVE COUNCIL OF THE ISLAND OF NEWFOUNDLAND, IN PROVINCIAL PARLIAMENT ASSEMBLED.

THE PETITION OF THE UNDERSIGNED, THOMAS ROBSON, OF SACKVILLE, IN THE PROVINCE OF NEW BRUNS-WICK, MASTER MARINER.

Humbly Sheweth,

That your Petitioner is at present, and has been for some years, a resident at Sackville, in the County of Westmoreland, and Province of New Brunswick.

That thirty years practical experience of the navigation of the Bay of Fundy has enabled him fully to appreciate the advantages which a properly-constructed Fog Bell would confer on all Mariners engaged in the trade of the Bay.

That the subject has occupied the serious attention of your Petitioner for the last twenty years; and that now, after many alterations and improvements, he hesitates not to say that he has completed a Machine, in miniature, for ringing a Fog Bell, in the efficiency of which he places the most unbounded confidence.

172 .

That it will be put in motion by the slightest breeze that will move a vessel through the water; that in fine clear weather the Bell will cease striking—but on the least change to a humid foggy atmosphere, or during a snow storm, it will immediately commence ringing; and that its machinery requires no winding up, nor any attendance whatever. It is completely enclosed from the weather, and is well adapted for lone stations or those difficult of access.

That your Petitioner has addressed a Memorial to the Commissioners of Light Houses for this Island, praying them to take such invention into their consideration.

That your Petitioner is advised that he cannot safely disclose the said invention, or any part thereof, until he shall have been secured by Letters Patent issuing from the respective Governments of the several Provinces of British North America.

That your Petitioner, having already incurred a considerable expense in maturing such invention, respectfully trusts that, inasmuch as such invention promises to be of great public utility, and is in its nature a national improvement, and essential to the safe navigation not only of the shores of the Island of Newfoundland, so peculiarly liable to fogs, but also of the coast of British America generally, but cannot be of general adoption or the source of great emolument to your Petitioner,—your Honourable House will be pleased to pass an Act enabling your Petitioner to take out a Patent for the Island of Newfoundland for such invention and every part thereof, or for otherwise securing such invention to your Petitioner free of any cost to him.

And your Petitioner hereby proposes that, if the said invention shall, on such further examination thereof after such Patent shall have been granted, as to your Honourable House, or to the Commissioners of Light Houses or other competent authority, shall be deemed satisfactory, your Petitioner will thereupon execute to the said Commissioners a License to them for the exclusive use of such Fog Bell, and for the use of such part of the other Machinery as may be necessary to work the same within the Island of Newfoundland, in consideration of the Sum of Two Hundred Pounds to be paid to your Petitioner towards remunerating him for the labour he has bestowed and the expenditure he has been at in maturing such invention.

Or, if it should seem fit to your Honourable House, your Petitioner is willing to assign all his right and interest in the said invention, so far as regards the said Fog Bell, and to be exercised within the Island of Newfoundland, as soon as such Patent or exclusive right shall be granted, on receiving the said Sum of Two Hundred Pounds.

And in order to enable your Honourable House or the aforesaid Commissioners of Light Houses to ascertain the merits of his aforesaid invention, and to form a correct judgment thereon, your Petitioner most respectfully suggests that on an appropriation being made or placed at the disposal of His Excellency the Governor in Council, to defray the expense thereof, (which your Petitioner is unable himself to defray after his large outlay on such invention,) your Petitioner would forward a Working Model of such invention to Newfoundlaud, under the care of some trusty person acquainted with the working thereof, and submit the same to such inspection (after the granting such Patent) as your Honourable House may deem necessary.

Your Petitioner therefore humbly prays that leave may be given to bring in a Bill, and that an

Act may be passed for securing to your Petitioner, by Patent, the exclusive right to the aforesaid invention; and that such encouragement may be afforded to your Petitioner for the same by such pecuniary grant as to your Honourable House shall seem meet.
