NOTES:

Contract commitment report provided by HealthPRO was the basis of this report and cover all contract categories.

Only contracts committed to in the period July 1, 2017 to December 31, 2017 are included in this report.

Contract Value calculation is an approximate amount based on annual spend amounts for contract items as entered and found in each regions meditech system.

Contracts where high clinical sensitivity require a more thorough evaluation before conversion may result in longer implementation periods.

Any contract having no spend amounts, no purchase history or incomplete conversions at the time of this report preparation was removed from the final calculation and therefore reduced the total number of contracts committed to by each region for the reporting period.

Labrador South Pharmacy purchases are included in the Eastern/LGH pharmacy module reducing the he number of Pharmacy contracts LGH committed to in the period.
