Overview of the Advisory Board and Ireland Business Partnerships

Ireland Business Partnerships (IBP) was established in 1997 as a public/private partnership between the private sector and the Government of Newfoundland and Labrador. The organization was established in response to the Signing of the Memorandum of Understanding (MoU) between the Government of Newfoundland and Labrador and the Government of Ireland in 1996.

In 2004, Premier Williams and Irish Taoiseach (Prime Minister) Bertie Ahern re-signed the MoU between the Government of Newfoundland and Labrador and Ireland reaffirming the relationship. In this same year, Government moved IBP into the Department of Innovation, Trade and Rural Development (INTRD).

INTRD provides Ireland Business Partnerships with two staff positions, an Executive Director and an Industrial Development Officer. The Department also provides IBP with its budget allocation.

A volunteer Advisory Board, appointed by the Premier, advises IBP on strategic directions and provides policy advice. Strategic Directions

Strategic directions are the articulation of desired physical, social and or economic outcomes and normally require action by more than one government entity. These directions are normally communicated by government through platform documents, Throne and Budget speeches, policy documents, and other communiqués. The *Transparency and Accountability Act* requires departments and public bodies to take into account these strategic directions in the preparation of their performance-based plans. This action will facilitate the integration of planning practices across government and will ensure that all entities are moving forward on key commitments.
