Table Questions in the House of Assembly from MHA Lorraine Michael

Question 11:

In relation to the proposed long-term care and acute care hospital in Corner Brook, what are the transaction costs (legal, accounting, etc.) associated with each of the procurement options?

Response:

Mr. Speaker, on April 5, 2017, the member opposite (MHA Michael) tabled the following question in this House: In relation to the proposed long-term care and acute care hospital in Corner Brook, what are the transaction costs (legal, accounting, etc.) associated with each of the procurement options?

Mr. Speaker, the current contract with EY which advise and led us through the procurement process for the long-term care facility is \$450,000.

The services of EY for the value for money analysis for the long-term care project and acute care hospital cost is \$400,000.

The Province is also retaining the services of a legal advisor and a fairness advisor for the long-term care project. The costs of these services will be provided when a successful proponent has been identified. The Province is in the process of retaining these services for the acute care hospital. The costs will be provided when a successful proponent has been identified.
