Table Questions in the House of Assembly from MHA Lorraine Michael

Question 8:

In relation to the proposed long-term care and acute care hospital in Corner Brook, what is the full 'value for money' assessments conducted for government by EY?

Response:

Mr. Speaker, on April 5, 2017, the member opposite (MHA Michael) tabled the following question in this House: In relation to the proposed long-term care and acute care hospital in Corner Brook, what is the full 'value for money' assessments conducted for government by EY?

Mr. Speaker, the full results of the value for money assessment will be provided when a successful proponent has been identified.

This is consistent with practices in other jurisdictions, so as to not influence bids from potential proponents.
