2017-18

## MESSAGE FROM THE MINISTER

In accordance with the **Transparency and Accountability Act**, under which the Committee is a Category 3 entity, it is my pleasure to present this 2017-18 Annual Report for the Minister's Advisory Committee on Labrador Transportation. This report provides an overview of the Committee's structure, activities, participants, and accomplishments during this past fiscal year. This report was prepared under my direction and I, along with my fellow Committee members, am accountable for the results contained herein.

The primary responsibility for core commitments related to transportation in Labrador lies with the Department of Transportation and Works. During 2017-18, new funding was secured from the federal government under the New Building Canada Plan for the widening and paving of the Trans Labrador Highway from Charlottetown Junction to Cartwright Junction.

As part of its mandate, the Committee contributes to a collaborative approach to addressing the transportation needs of residents, stakeholders and businesses in Labrador.

Sincerely,
