

2015 Provincial General Election Report on Election Finances

Office of the Chief Electoral Officer

Introduction

This **Election Finance Report** is an addendum document to the Report on the *Provincial General Election November 30, 2015* that was submitted to the Speaker of the House of Assembly on July 25, 2016.

The original of this Report has been forwarded to the Queen's Printer for the purpose of reproduction. Also, a copy has been supplied to the Legislative Librarian for further reference by Members of the House of Assembly and summary financial information is also available for viewing on the Elections Newfoundland and Labrador web page at www.elections.gov.nl.ca/elections/.

Election finance provisions of the Elections Act, 1991 (the Act) deal with the registration of candidates in a general election and the conduct of both political parties and candidates with respect to receipt of political contributions, limitations on election expenditures and the filing of required financial statements and reports.

This report contains a summary of the financial information submitted under these provisions. The actual financial statements on which this report is based can be viewed at the Office of the Chief Electoral Officer (OCEO) during normal business hours.

Filing of Financial Statements

Section 304 of the Act specifies that the Chief Financial Officer (CFO) of every registered political party or candidate shall, within four months after polling day, file with the Chief Electoral Officer a financial statement of income and expenses of the party or candidate for which he or she acts relating to the election, together with the auditor's report as required by subsection 302(6). The OCEO has responsibility for conducting a review of these filings with a view to determining compliance with election finance legislation.

The Act also provides that a CFO who willfully, or through neglect, fails to file a financial return with the Chief Electoral Officer within the required time frame is liable on summary conviction to a fine of \$50.00 per day for each day until the filing is received.

While my office understands that issues other than wilful intent or neglect can contribute to campaign filing delays, late filing of required returns is troubling because it negatively impacts the ability of my office to produce timely and useful financial reports for public viewing.

My office places the financial information relating to individual financial returns on display in our public viewing library in St. John's once the information is received and has been reviewed. As has been done in the past, we have opted to delay posting that same information to our website until production of the requisite financial summary report is completed. We recognize following this procedure makes it difficult for interested parties outside of the St. John's area to access the filed information on a timely basis.

To resolve this discrepancy my office is exploring options that will allow us to post to our website financial information relating to the annual filings for political parties, and the filings for parties and candidates in general and by-elections in this province. This could include information such as the status of outstanding or non-posted filings, and updating the website for any filings that have been completed and reviewed prior to issuing the financial summary report. It is my hope that implementing these changes will ensure that parties and candidates file their election finance statements in a timely manner, and election financial information will be more accessible to interested parties.

November 30, 2015 General Election Filings

The total number of candidate filings for the 2015 Provincial General Election was 125 which consisted of 40 Liberals, 40 Progressive Conservatives, 40 New Democrats, 4 non-affiliated candidates, and 1 candidate that withdrew their nomination.

In addition to candidate filings, my office received reports on campaign income and expenses from the three registered political parties who had nominated candidates for the Election.

Appendix A to this report presents a summary of the income and expense statements for the three registered political parties who incurred election related expenses and a district by district summary of the income and expense statements for all candidates. As previously noted, the actual financial statements on which this summary is based may be viewed at the OCEO during normal business hours.

Political Contributions

Subsection 299(4) of the Act requires that a registered party and a candidate in an election shall, along with the statements of income and expenses for the election required by Section 304, file a listing with respect to contributions received in a campaign period that either individually or in sum exceed \$100.00 together with the name and address of the contributor(s).

In addition, Subsection 299(3) of the Act provides that a registered political party shall file an annual return and listing with respect to contributions made to the party in a calendar year.

To avoid duplication of these listings, **Appendix B** to this report contains a comprehensive listing of political contributions for the 2015 General Election made to the reporting candidates only. Contributions made to the reporting political parties during this period are summarized in a separate report titled **"SUPPLEMENTARY SCHEDULE OF CONTRIBUTIONS FROM THE ANNUAL REPORT ON ELECTION FINANCES JANUARY 1, 2015 TO DECEMBER 31, 2015."**

Election Expenses

Section 310 of the Act places limitations on the amount that political parties and candidates are permitted to spend on certain types of election expenses. A political party in a general election is limited to election expenditures which shall not exceed \$3.125 (adjusted for inflation) multiplied by the number of persons on the revised list of electors in each district the party has candidates. Election expenses of a candidate are limited to that same factor multiplied by the number of persons on the revised list of electors in the district in which he or she is a candidate, but in no case shall a party's or candidate's expenses be limited to an amount less than \$12,000 (adjusted for inflation).

The dollar factors of \$3.125 and \$12,000 specified under Section 310 of the Act are adjusted annually by the Chief Electoral Officer for changes in the consumer price index. The factors applicable for the 2015 General Election were \$4.386 and \$16,879 respectively.

A listing of individual district limits applicable to the 2015 General Election is presented in **Appendix C** to this report.

Each of the political parties and all of the candidates who filed returns relating to the 2015 General Election were found to be in compliance with expenditure limits.

Public Subsidization of Candidate Expenses

Section 312 of the Act entitles a candidate who receives at least 15 per cent of the popular vote in his or her electoral district to a reimbursement of election expenses from the Provincial Treasury equal to the lesser of one-third of the expense limit for the district or one-third of actual qualifying expenses. In addition to the election expense subsidy, Subsection 302(9) provides for the subsidization of the cost of auditor services in an election to a maximum of \$500 for all candidates.

For the 2015 General Election, the total election expense subsidy payments (including auditor services) was \$682,421.01. Of the 125 candidates in the election, 80 received at least 15 per cent of the popular vote in their district thereby qualifying for subsidy payments that totalled \$620,480.26. Subsidies payable to the candidates ranged from a low of \$2,388.93 (\$1,888.93 excluding auditor services) to a high of \$14,370.33 (\$13,870.33 excluding auditor services).

Two of the candidates that received at least 15 per cent of the popular vote in their district did not file their returns prior to the March 31, 2016 deadline and forfeited their eligible election expense subsidies. These subsidies would otherwise have been payable had the candidates filed their returns on time.

Section 313 of the Act provides that any campaign surplus created either from political contributions, transfers or the payment of election expense subsidies be, in the case of a candidate whose political affiliation appears on the ballot, remitted to his or her party, and in all other cases remitted to the Chief Electoral Officer who shall hold the money in trust on behalf of the candidate to be used in the next general or by-election. If the candidate does not run in the next election, the surplus funds held in trust are remitted to the Provincial Consolidated Revenue Fund.

If a campaign with a surplus balance is entitled to a subsidy payment under Section 312, the Chief Electoral Officer deducts the surplus balance from the subsidy payable and remits the surplus amount directly to the candidate's affiliated party.

Of the 78 candidates eligible for subsidy payments, 51 reported a campaign surplus remaining after payment of expenses. These surplus amounts were deducted from subsidy payments by the Chief Electoral Officer and remitted directly to the eligible candidate's affiliated political parties as follows:

Liberal Party	\$150,652
New Democratic Party	\$ 34,554
Progressive Conservative Party	<u>\$ 65,670</u>
<i>Total</i>	<i>\$250,876</i>

In addition to surplus funds deducted from subsidy payments and paid directly to affiliated political parties, the Chief Electoral Officer also directed that any other surplus funds remaining in campaign accounts be transferred to the candidate's affiliated party.

Additional surplus funds transferable by campaigns to their affiliated parties under this directive totalled as follows:

Liberal Party	\$ 80,984
New Democratic Party	\$ 11,099
Progressive Conservative Party	<u>\$ 206</u>
<i>Total</i>	<i>\$ 92,289</i>

Total auditor subsidy payments for all candidates amounted to \$61,940.75. These subsidies are paid directly to the candidate's auditor after a candidate has filed their election returns.

A summary of subsidy payments detailing the distribution of these subsidies between candidates and their affiliated political

parties, additional surplus funds transferred to affiliated parties, and subsidy payments to auditors is presented in **Appendix D** to this report.

Late Filing

The filing deadline for the required financial statements was March 31, 2016.

In all, 7 of the 125 registered candidates failed to file their returns by the specified deadlines, representing approximately 6% of candidates. This is a marked improvement over the 2011 General Election whereby 22% of candidates filed their returns after the specified deadline. Failure by a candidate to file their returns prior to the required deadline results in a forfeiture of their entitlement to a refund of the \$200.00 nomination fee deposit, as well as forfeiture of any election expense subsidy for candidates who received 15 per cent of the popular vote in their districts. A listing of candidates who filed after the March 31, 2016 deadline is presented in **Appendix E** to this report.

As mentioned above, the Act provides for fines and/or penalties on summary conviction for a CFO who either willfully, or through neglect, fails to file a financial return with the Chief Electoral Officer within the time required by legislation.

I have completed a review of the circumstances concerning all late filings to determine whether proceedings should be instituted on the grounds of willful intent or negligence by the respective chief financial officers. My conclusion as to the reasons for the late filings is that there was no willful or negligent action on the part of the CFOs and the decision was made not to pursue charges.

Compliance Issues

As part of the powers and duties under the Act, the Chief Electoral Officer is responsible for ensuring compliance by registered entities with the provisions of Part III which specifically addresses election finance issues and the disclosure and reporting requirements for financial information. The spirit and intent of these legislative provisions are to promote fairness and equality with respect to spending by campaigns and openness with respect to reporting of contributions and other money sources.

With regard to my review of campaign filings for the 2015 General Election, my office encountered a number of compliance issues. While I am satisfied that the issues encountered were of a nature that did not compromise the principles of fairness, equality and openness and all issues have been resolved to my satisfaction, I have presented below some of the more serious issues that this office faces with respect to election finances.

It should be noted that, with the exception of fraudulent activity, the Office of the Chief Electoral Officer does not have the legislative authority to intervene or disallow a particular expenditure relating to an election. This office, however, does have the ability to classify election expenses as ineligible for subsidy reimbursement.

The CFO for a party or a candidate has primary responsibility for authorizing and incurring election expenses during an election event. Except for a specific provision of the Act which prohibits directly influencing or purchasing a vote and the expenditure limit provision which limits the total amount that can be spent on certain items, he or she is entitled to spend campaign money in whatever manner is deemed acceptable for the purpose of securing the election of their candidate. However, the CFO is required to report all expenditures to the Chief Electoral Officer and they are incorporated into his or her election finance report and become a matter of public record.

The Act does not offer any specific guidance on expenditures that would be considered as improper expenditures in an election campaign, however the Office of the Chief Electoral Officer is responsible for setting guidelines and procedures related to improper expenses and communicating them to candidates and CFOs. An example of an improper expenditure might include

any expenditure on alcohol, either for the purpose of influencing a vote or for campaign workers. Another example of improper expenditures would be purchases of equipment (televisions, generators, electronic devices, etc.) that might be used briefly during the campaign, and retained by the candidate or their staff subsequent to the election for their own benefit. This office will be reviewing and updating guidelines in materials in preparation for upcoming elections to ensure that candidates and CFOs are properly informed of this office's expectation on the use of contributed funds and publicly funded subsidies for legitimate campaign expenses.

Late filing of returns continues to be a problem for the Office of the Chief Electoral Officer. While there was a marked improvement in comparison to the 2011 General Election with respect to filings being delivered on-time, there still were several that were received over 4 months late. Late filings hinder this office's ability to report on election finances in a timely manner. This office did not fine or prosecute any campaign CFO pursuant to Section 320 of the Act, as the circumstances surrounding each of the late filings by the candidates did not constitute wilfulness or neglect to file the returns on behalf of each respective CFO. However, in future electoral events this office will ensure that parties, candidates, and CFOs are aware of the filing deadline and the provisions of Section 320 of the Act prior to commencing an election campaign.

I look forward to discussing these identified problem areas with the Advisory Committee on Election Finance established under the Act, and to work towards establishing procedures and guidelines acceptable to all parties that will further alleviate any concerns with respect to maintaining the principles of fairness, equality, and transparency of election finances.

A listing of contributions made to the registered political parties relating to the General Election of November 30, 2015 is included in the annual filing of the Political Parties. This statement details expenditures of the political parties related to the General Election of November 30, 2015. The details of contributions of amounts greater than \$100 are included and listed in a separate supplementary schedule titled "Supplementary Schedule of Contributions from the Annual Report on Election Finances January 1, 2015 to December 31, 2015"

Note 2

A registered party's campaign expenditure limit is calculated by multiplying the expense factor for 2015 by the number of persons on the revised list of electors in each of the districts in which the party has a candidate. A registered party contesting all 40 districts would have a campaign expenditure limit of:
360,533 X \$4.386 per voter = \$1,581,298

Notes:

District expenditure limits are calculated by multiplying the number of registered voters in a district by an expense factor for 2015 (\$4.386 per voter). An individual district limit cannot be set at less than \$16,879.00 as per section 310(3) of the Elections Act, 1991.

A registered party's campaign expense limit is calculated by multiplying the expense factor for 2015 by the number of persons on the revised list of electors in each of the districts in which the party has a candidate.

A registered party contesting all 40 districts would have a campaign expenditure limit of :

360,533 X \$4.386 per voter =

\$ 1,581,298.00
